

(Chicago, Nov. 18.—Complete vindication of Dr. Harry J. Haiseld, the surgeon who declined to operate on the defective Bollinger baby and thus save its life, will be recommended to the coroner's jury which is to conduct an inquest today. The recommendation for vindication will be made by Dr. H. G. W. Reinhardt, chief clerk of the German-American hospital where the baby died last night. Coroner Peter M. Hoffman had indicated that unless the post-mortem proved the child a mental defective Dr. Haiseld might be tried for criminal negligence. "My examination shows that the probabilities are strongly that the child would have been a mental defective," Dr. Reinhardt said today. "It would have been a paralytic all its life. My own opinion is that Dr. Haiseld was right in not allowing the baby to live." Mrs. Anna Bollinger, mother of the defective infant which was permitted to the yesterday told today of the death. She made no comment save to repeat that denial of the simple operation which would have saved the baby's life was best for an concerned.

Amsterdam, Nov. 18.—(Via London).—According to newspapers report the Norwegian steamer Ulriken, 1454 tons, from New York for Rotterdam has been sunk with the loss of five members of her crew.

The steamer Glenmore, on arriving at Rotterdam from New York reported the Ulriken struck a mine near Gallor Light.

Washington, Nov. 18. — The United States probably will make no diplomatic inquiry of Austria-Hungary as to its attitude toward the conduct of submarine warfare as a result of the sinking of the Italian liner Ancona pending the receipt of detailed information concerning the attack from the following official at Vienna through Ambassador Penfield:

Sufficient information for an inquiry state department officials believe, however, is furnished by the Austrian foreign office statement concerning the tragedy which was enabled to the department yesterday by Ambassador Penfield.

The statement says that the A-

Warning shot was fired across her bow and denies the Italian government's charges that shots were fired at the steamer after she came to a stop or that her lifeboats were shelled.

Lima, Nov. 18.—Pennsylvania crude oil reached the two dollar mark, when the upward trend of the market boosted all grades in Southwestern Ohio ten cents today. Special Music By Big Choir A Feature

# East End Revival Grows In Interest

The biggest attendance of the present series of special meetings was recorded at the Grandview Avenue Christian church last evening, when the pastor, the Rev. E. G. Hamilton preached a splendid sermon on "Conversion." The services were inspiring and helpful to all present, and at the close one new member was added to the church membership list.

A feature of the meeting is the singing by the choir of thirty voices under the leadership of M. H. F. Kinsey. Special musical programs will be rendered each night this week and Sunday by the choir, and it is anticipated that the interest will continue to grow.

Everybody is invited to the meetings, and a special welcome will be given the workers from other churches who may wish to aid in the revival.

# May Be Trouble Over 'Love' Letter

Interesting developments may follow the publication of the alleged letter from a young lady of this city to Lou D. Smith, furniture dealer of Tronton, according to this morning's Trontonian, which has the following to say:

"It is stated that there will be no end of trouble from the interception and publication of a letter to Mr. Lou D. Smith, allegedly from a young lady friend at Portsmouth. The letter is said to have been intercepted before it reached Mr. Smith, and it is reported there will be prosecutions of the persons responsible for the alleged violation of the federal statutes."

"Just what action will be taken is not known, but the offense charged is quite a serious one."

# Roses Given Away At Ahrend Store

What is unquestionably one of the prettiest gents furnishing stores in Ohio was opened Thursday when George Ahrend opened his new place of business in the Richardson block.

Unique in design, equipped with handsome fixtures, finished in light green and set off with myriads of lights the effect is pleasing to the eye. Handsome show cases of the very latest pattern also add a touch of individuality to the store. Many goods are displayed in wall cases that harmonize with the green color scheme of the store.

Mr. Ahrend in the management of the store will have the assistance of Roy Ferguson and if courtesy and good service will spell success they have no reasons to fear.

At today's opening many hundreds of roses were handed out to the visitors, who inspected the place and heaped words of praise upon the designers and proprietor for the good taste and progressive display.

# Big Iron Demand Continues Active

Cleveland, Nov. 18.—The Iron Trade Review today says: Demand for pig iron continues very active throughout the country and prices are higher in leading centers, notably in Chicago and Cleveland. Some resale iron at \$13 for No. 2, Birmingham, is the lowest to be had in the south.

The Steel Corporation during the past week has been very active in chartering vessel tonnage for the movement of iron ore for next season and it has been followed by independent companies, the contracts being made at an advance of 10 cents per ton over the 40 cent rate prevailing this year from the head of the lakes.

Prices of shapes, plates and bars for anything like early delivery are considerably higher.

# MR. AND MRS. E. H. POWERS ARE ANXIOUS TO MEET OLD FRIENDS

Mr. and Mrs. E. H. Powers, of Brighton, Col., who are visiting their daughter and son-in-law, Mr. and Mrs. William Behr, of 1654 Eighth street, are anxious to meet any of their old friends who are still in this part of the country.

Mr. Powers' father was W. C. Powers, who conducted a general merchandise store at the mouth of Brush Creek. The elder Powers owned a farm up Brush Creek and while his father was in the store, Mr. Powers took care of the farm. The store broke up at the beginning of the war when prices took a big drop. At that time goods were purchased from such wholesale firms as R. Rhodes, Reed, J. P. Tole, Giles Gilbert and C. P. Tracy. That was fifty years ago.

He was married to Miss Nettie Campbell of Mt. Joy and in 1886 they moved to Benkleman, Neb., where Mr. Powers was engaged in stock raising and farming. In 1895 they moved to Brighton, Colo., where they have lived ever since. Mr. Powers is more than satisfied with his home and says one can raise anything they plant in the ground. He is living as a retired farmer. Mr. Powers was never in the retail grocery business in this city as was first reported. His father conducted a store at Coal Grove for a short time.

Emos W. Campbell of 1533 Chillicothe street, is a brother-in-law of Mr. Powers. They are also friends of Mrs. W. G. Unger of Robinson avenue. John L. Dodds was a neighbor farmer to Mr. Powers. All the old settlers of that part of the county have died or moved away. Mr. Powers being disappointed in not being able to find one of his old neighbors.

Monday, Mr. and Mrs. Powers leave for Tampa, Fla., to spend the winter. Mr. Powers has been suffering with asthma for 29 years, his illness making it necessary for him to leave Colorado.

# SWAMP-ROOT FOR KIDNEY DISEASES

There is only one medicine that really stands out prominently as a remedy for diseases of the kidneys, liver and bladder.

Dr. Kilmer's Swamp-Root stands the highest for the reason that it has proven to be just the remedy needed in thousands of cases. Swamp-Root, a physician's prescription for kidney diseases, makes friends quickly because its mild and immediate effect is soon realized in most cases. It is a gentle, healing vegetable compound.

Start treatment at once. Send at all drug stores in bottles of two sizes—fifty cents and one dollar.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention The Portsmouth Daily Times.

## Dentists To Meet

Portsmouth dentists, who are members, were invited Thursday to attend the fifth annual meeting of the Ohio State Dental Society, which will be held in Columbus during the week of December 7.

During recent years dentistry has made great strides in several depart-

ments. One of the most interesting has been the departure from the old-time painful methods that made visits to the dentist's office a horror. At the Columbus meeting clinics, exhibits and papers will be presented bringing out many new points in painless dentistry.

## NEW BOSTON

Ringwald and Sons, Muma's lun pavers, succeeded in having their heavy steam roller raised and righted Thursday morning.

The residents along the south side of Gallia street from Center street to Park avenue are satisfied now that the piles of brick have been removed.

Dr. T. H. McCann and wife of Waverly were in the village Thursday calling on relatives and friends.

Brick are being hauled for the Glenwood avenue paving job. Work of laying brick will be started within two weeks despite cold weather. The street will have a gravel base. Kaps Bros. have the contract.

The Baptist church is expected to be filled tonight (Thursday) when the different Sunday school classes render a "several" program of song, readings and music.

P. H. Fritz, real estate dealer of the city, and his automobile came to a halt in the alley in the rear of the O. E. Burcham garage Wednesday. The gears of the machine were stripped. The car was moved to the Burcham lot where it is undergoing repairs.

Mr. and Mrs. Thomas Bickett and Mr. and Mrs. Finnan Everling moved into the Elmhurst prop-

erty on Gallia street at the head of Ohio avenue Thursday.

The Christian church Ladies Aid Society met at the home of Mrs. Belle Robinson on Ohio avenue Thursday.

The sewer committee of council and city service director failed to meet Wednesday to go over the ground in Peebles addition where the city is supposed to have built a sewer which empties on Peebles ground which is a part of New Boston.

Mrs. Burcham Emory who was taken suddenly ill Tuesday is slowly convalescing.

The window display at William Canter's grocery is attracting considerable attention. Mr. Canter has acquired the services of an expert window trimmer to make his displays.

Clerk Thomas O'Neal is busy posting the "re-numbering of houses" ordinances. A man will be named within a few weeks to make a round of the houses and notify the residents of the new numbers.

Laying of brick on Gallia street from Park avenue to Coburn's pharmacy was completed Thursday and work of pouring cement filler was started. Two weeks more and this stretch of paving will be opened.

Kilbourne Smith has resigned as clerk at William Canter's grocery. Mrs. Dall Canter has replaced Mr. Smith.

To hurry up the brick laying Joe Hladik, Gallia street restaurant man, started to help the pavers drop brick Thursday but after ten minutes stooping over and with several blisters on his fingers Joe quit.

Rhodes avenue will be opened Sunday and the steam shovel will be able to start work Monday on the grading of Gallia pike from Center street, west. Traffic on the pike is holding back the steam shovel. A cross-over of slag and lumber will be put over the street car tracks at Rhodes avenue. The Street Railway company will look after the upkeep of the cross-overs.

time read Charlotte Reute's great novel, "Jane Eyre." Apart from the sentimental interest the pictures are exceedingly satisfactory. There is no glossing over the tragedy on which the plot of "Jane Eyre" is reared, starting with Rochester's marriage to the unfortunate girl who soon goes insane.

With the appearance of Jane Eyre as governess for Rochester's ward and the growth of the love affair between the young woman and her employer, the inevitableness of the tragedy is readily appreciated. This sense of impending evil is heightened by frequent glimpses of the insane wife, from whom, owing to the laws of England, Rochester cannot get a divorce. A telling situation is met when the marriage of Rochester and Jane is interrupted, and for a concluding thrill Director Vale arranged a spectacular fire scene.

Miss Vale and Mr. Ritchie share the acting honors with Gretchen Hartman, who has the very trying part of the insane wife.

"Waking Up Father," a laughable Mina comedy, is one of the funniest on record. George Ovey plays Jerry and what he does would be hard to tell. George is one of the greatest comedians of the day and he will keep you laughing if you attend the Exhibit today.

Great Program Tonight At The Arcana

"The Cry of the First Born." Owing to his father's illness, Cecil Grenwell is sent to inspect the family rice plantation in Hawaii. While there he falls in love with Liana, an Hawaiian girl, and wins her away from her native sweetheart, Kau. They are married and a child is born to them, which they name Naipo. Grenwell is called to England, due to the illness of his father, and he promises his wife to return as soon as possible. Shortly after Grenwell has left the islands, Lieutenant Graham, of the government post, in whose care Grenwell has left Liana and the baby, attempts to force his attentions upon the girl. To escape his amorous advances she leaps from a cliff and is permanently injured. Graham, in revenge, writes Grenwell that Liana and the child perished in an epidemic of fever which swept the island. Grenwell is broken-hearted at the news, but he does not return to the islands. This is the first of the three fine Laemmle reels showing this great picture. When you see the other two you will realize you have seen one of the very best of this production. If you were to try to guess the conclusion of this picture story you certainly would miss it.

"Force of Example" is a number that pleases and if you attend the Arcana today you can rest assured that your small price of admission is money well spent.

### ABIDING WITH TIME.

The Scioto bridge will be open for traffic about a week from this day.

It has been a long and aggravating wait for its completion, made more than doubly so by the extraordinary conditions that prevailed, but after all how unnecessary was the public impatience. The structure was washed away in the unprecedented flood of 1913, and many vexations delays intervened before work was finally begun upon it, but now that its use is at hand, we may well feel that a little better than two years was not such a great while after all. For, in so far as observation, skill and experience can show we have an improvement that is not only adequate for the place and day, but one which will stand and meet all requirements both of improvement and time indefinite. In other words, it is better to have proceeded slowly and have attained something sufficient for the present and the future, rather than have hastened and made mistakes that have been altogether too common in public improvements in this county.

The same thought might well be applied to the matter of paved roads. And its correctness has likewise been demonstrated to us therewith this very year. There has been much complaint, yes very justifiable complaint of the blockade to traffic, attending road improvement but now the work is done isn't the enduring of inconvenience worth the while? Today one can travel from Sciotoville to Davis Station, a distance of more than twelve miles, any day in any sort of weather, and, outside of the unfortunate blunder of three miles of concreting, find a thoroughfare that for generations to come will be without any expense of upkeep and repairing. There will be no more concreting, it is a safe guess, but there will be many more miles of paving and the work should not stop until every main road, now under improvement is laid to the country line. It is certain anyway, that brick paving must be diligently kept up during the time road money is coming in from the special two mills levy or it will not be voted again by the people. That thought will doubtless clear the minds of the present board of commissioners, if it does not see to that effect, and it will avoid the stupendous mistake that was made by its predecessor in misusing the bulk of the fund, the first year of its levy, for other purposes.

### STILL HOLDING THE BAG.

With a sort of ghoulish glee free and untrammelled Democratic contemporaries can look upon the plight of the G. O. P. organs, anent the state fair.

The organs were led to play the undertaking up big, on the premise it was their patriotic duty to boost the old party, and besides there was not to be lacking a reasonable and substantial consideration for the publicity given. Heart and soul they threw themselves into the boosting game, not neglecting to throw in extra and extraneous measure of scoffs and sneers at the niggardly manner in which the Cox administrations had conducted this people's show. Now comes the sequel and with it wailing and gnashing of teeth. The state fair went totally and utterly broke. The agricultural board paid the sign painters, the bill board men and issued several hundred jobs and fifty thousand free tickets to the small and large fry politicians, but there isn't one single solitary red cent left for "the most valuable means of publicity and without whose generous co-operation the fair can not be made a success"—the newspapers. The fair board has appealed to the emergency fund commissioners for an allowance to pay for advertising bills incurred, but this last body is displaying an unusually finicky twist and is wanting to know just how laudation for the able secretary can be construed as publicity for the fair, and is contumaciously holding up the allowance.

Meantime the organs are holding the bag and swearing under their breath.

Sly whispers are going about that Willis has been handed some hot stuff about who is really who here in Scioto county, but not on your life dare mention be made of the hardy one who boarded the lion in his den. Then take the whisper for home consumption strictly.

Mayor-elect Kaps is out with "a keerd" in all the force of big, black type saying he is going to enforce the law and all the laws. When we were a child there was a bright friend, who used to say to us: "Cousin Brag is a good dog, but old Hold-Fast is a better." We shall see what we will see.

E. M. Fullington has announced his candidacy for the Republican nomination for state auditor. Mr. Fullington is an exceedingly fine and clever gentleman, with a wide acquaintance over the state and chances are that he will win the nomination handily.

The steel mills are turning out more tonnage, this year, than ever before in their existence. It does beat all how Democratic free trade continues to paralyze the industry of the country.

The taxpayer's dollar never went further than when it was spent in making a real street or road. The waste and loss is in squandering it in a way that is not lasting.

### CERTAINLY NOT IN THE GOOD ROADS CLASS

### SOMETHING ABOUT FATHER.

(Edwardsville (Ill.) Intelligencer.)

When a man succeeds in living a good or useful life that fact is usually attributed to the influence of a mother. When men talk of days past no word brings forth more treasured memories than "mother." When a lawyer wishes to arouse a jury's compassion for a client he invariably speaks of the effects of conviction on the mother. Poets, dramatists and fiction writers of all ages have united in honoring her name. Days have been set aside in her honor, pensions are given her, flowers named for her, societies founded for her.

All this is well. The world would be a sorry world, indeed, if it were not so. But is there not danger of father being overlooked in the shuffle? The average father succeeds pretty well in discharging his duty to society. He labors along persistently and quietly for six days a week that his family may be provided for; he stands between his family and the world shouldering the responsibility of the rent, the taxes, the grocery and coal bills; he admonishes the boy and advises the mother, seeking always to make their burden lighter; he works unceasingly, without complaint, fighting, scheming, suffering, to the end that his family may be assured comfort and independence. In this he sometimes fails, but he keeps on trying, cheerfully, solidly, stubbornly, lunging along to the end.

The sacrifice that must be made he makes willingly. The boy must go to college and the girl must have music lessons; something must be cut, and usually it is some luxury of father's that falls by the wayside. He is not so poetical a figure as mother, not so demonstrative in his affections, so elated in pleasure, so depressed in grief. And yet many will remember a kind word here or a thoughtful act there, that stands out clear and distinct as one of youth's happiest impressions.

Not often is he appreciated by the growing boy. Often he stands in the family as the official admonisher to whom the boy's faults are related for punishment. On him falls the unpleasant task of applying the rod; his is the arm that must enforce respect for mother and regard for the rights of others. In this light the growing boy is likely to view him with a mixture of fear, awe, and respect. Not until years bring a proper perspective is he rightfully understood and appreciated—and perhaps not even then.

A Missouri attorney, wishing to know what others thought of him, disguised his voice and told an acquaintance over the phone that he (the attorney) had just dropped dead in the street. "Is that so?" was the response. "The old fool ought to have been dead ten years ago."—Columbus Dispatch.

**MAKE THE ROADS BETTER**  
 BY JESSE TAYLOR  
 Editor of Better Roads and Streets

Maintenance, maintenance, maintenance. Your roads will go to pieces without it.

The improvement of a road enlarges the opportunity of all who have anything to do with it.

Those who oppose the early improvement of our public roads are stumbling blocks in the way of progress. Let the Devil take them.

Bad roads impose a greater tax than the tariff, yet politicians have been burning the air for years about the tariff and dodging the road question. The people intend to make them state their position.

The surface of every road should be made water-proof, and ditches kept open to prevent water standing on it, along it, in it or under it.

The road question has passed the stage of merely local interest and must be recognized as the nation's greatest problem. You will hear about it in the next campaign.

Ninety per cent of all the travel goes over twenty per cent of the mileage of roads, and the first to improve are the main market roads connecting all important commercial centers.

The question of state aid has been settled by the legislature of almost every state, and the question of national highways is now before Congress. At the coming session what will your Congressman or Senator do—vote yes? Vote no? Or duck?

The custom of many township officials of placing large crushed stone, boulders, or gravel on the hard surface of a road should be a crime punishable by a heavy fine.

Under the provisions of the Cass Road Law license fees paid to the state by owners of automobiles are credited to the state road maintenance fund and spent by the State Highway Department in repair and maintenance of inter-county and main market roads.

**NEW-YORK-DAY-BY-DAY.**  
 O. O. MCINTYRE.

New York, Nov. 18.—E. A. Neil used to be a press agent for H. H. Frazee, but now he's an honest to goodness producer and is going to star his talented bride in a play to be known as "The Dare Idea".

He hasn't called in regular play builders but has hired Everett Shinn, an artist, and Wallace Irwin, the verse maker, to do the trick.

Shinn got into the playwriting game for writing those amusing plays for the Waverly Place Players. One was called: "Hazel Weston, or More Sinned Against Than Usual"; another was "Myrtle Clayton, or Wronged From the Start"; and still another was known as "Lucy Moore, the Prune Hater's Daughter".

Sylvio Hein, the young composer, with a name like a new drink of soda water, is to write the music. New York is eagerly awaiting the production because Shinn has suggested that some day he is going to write a play giving the last act first and having the audience come in backwards.

Irwin was dashing off some lyrics the other day when he suddenly yelled: "What rhymes with rodler?"

Without looking up from his desk Weil shouted: "Bryan."

You may accept this story or leave it lay—it is a matter of perfect indifference. Billy is a cab horse that stands in front of the Waldorf. Whenever a taxi draws up at the hotel, Billy will watch his opportunity and when the chauffeur isn't looking, he will walk up and bite the taxi's honking department and immediately look the other way. The driver usually rushes up to his machine expecting a passenger. Michael Coleman, Billy's driver, who is sponsor for the story, says that on

such occasions Billy gives the drivers the horse laugh.

Tom Daley, the columnist on the Philadelphia Ledger, and Don Marquis, the columnist on the Evening Sun, are waging a battle of terrible violence. Daley drew first blood when he accused Marquis of not having any hypothesis.

Marquis refuses to be drawn any further into the discussion but closes his side of the fighting by maintaining that at this time he is no pejorative paralaepedon.

Address: Box 468, Mansuquan.

Paul Trou, a Russian Prince, has had a disillusioning experience with American police methods. With a friend and two beautiful ladies he started out slumming the other night from the Plaza. He expected the portals of the underworld to open at his knock.

But alas for rude reality! The Prince knocks at the door of an abandoned gambling resort and a disreputable policeman drags him to the station house to spend the night in a cell. His finger prints were also taken.

The only way for a Prince to feel at home in New York when he goes slumming is to get the proper credentials from the ward leader. In that way he can go the limit without fear of being disturbed but just being a Prince means nothing in the lives of our policeman.

**Ever Get a Stove in Your Eye?** Driggs, our popular druggist, was covered with dirt Saturday while taking a stove down, some of which lodged in his right eye, giving him much pain.—Lane (W. Va.) Recorder.

**Impenetrable** The guests were the same company of young ladies that have been associated in club activities for some time but have a brand new name and one hard to remember, "Honi-Soit-y Maby-Pense." No doubt the meeting is a deep mystery.—St. Joseph (Mich.) Press.

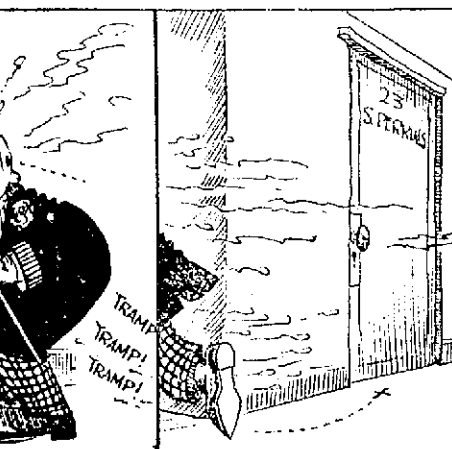

**English (Mex.)** The most sympathetic social note of the week is undoubtedly the Halloween party last night at the residence of Mr. and Mrs. Jas. Dubar by the respectable Tass Madams, Mrs. Dubar, McCabe, and Davis, in honor of their old friends. Certainly it was one of the most encouraged and greatly attended party where the principal and oldest families in the Tass valley participated, which also brought back thought of fifteen years ago, when the Tass Valley had among its population good element.—The Tass, N. M. News.

**THE MARKETS**

**NEW YORK STOCKS**  
New York, Nov. 18.—The strength of rails and reactionary trend of specialties were the conspicuous features of today's market.  
A mixture of gains and losses marked today's irregular opening, but in most instances changes were only fractional.  
The notable exceptions, including United Fruit, Westinghouse and Studebaker which rose 1 to 2 1/2, while General Motors soon rose 18 to 420. Bethlehem Steel opened down a point but rallied five to 484. U. S. Steel manifested further selling pressure, although opening at a slight rise in two lots of 3,800 shares. Coppers were inclined to react but Anaconda and Guggenheim were higher. Erie gained a substantial fraction at 45 1/2, its best quotation for the current movement. Canadian Pacific and Rock Island were heavy.  
Foreign selling caused general declines in the first hour, although rails were less affected than specialties. In fact the strength of international shares, including Union Pacific, Reading and Erie, helped to restore a measure of steadiness. Trading was less active than yesterday but embraced many issues. War shares averaged 1 to 2 point losses and mercantile marine preferred fell three to 67 1/2.  
Some high priced specialties extended early gains, but these were largely cancelled before noon, when prices reacted more sharply. Bonds were firm.  
Prices shaded again in the dull final hour, with heaviness in coppers and some specialties. Trading was irregular.

**CHICAGO GRAIN**  
**AND PROVISIONS**  
Chicago, Nov. 18.—Unsettled weather and the fact that receipts in the northwest were smaller tended today to strengthen the price of wheat.  
Assertions that steamship rates to Great Britain had become a little easier helped also to some extent to encourage the bulls. On the other hand, lower quotations from Liverpool acted as a check on the buying here. After opening 1/4 @ 1/2 to 3/4 up, with December at 109 1/2 to 104 1/2 and May at 105 1/2 to 105 1/2, the market scored moderate gains all around. Subsequently, demand widened and values gained owing to reports that foreign governments were taking measures to bring about lower freight rates on the ocean. The close was strong, 1 1/2 to 1 3/4 @ 1 1/2 cent net higher, with December at 105 1/2 @ 1 1/2 and May at 107 1/2 @ 1 1/2.  
Corn hardened in value owing to unfavorable conditions for curing and shipping. The strength of wheat was an influence too, adverse to the bears.  
Opening prices which ranged from 1/2 decline to 3/4 advance, were followed by a slight sag and then a general upturn.  
Additional gains resulted from reports of foreign buying of the December option here. The close was strong at an advance of 1 to 1 1/2 cents net.  
Oats seemed to be governed mainly by the action of corn. Price changes, though, held within narrow limits.  
Advances in the hog market gave firmness to provisions. Sellers were scarce.

**BOY SENT TO LANCASTER, GIRL WILL GO TO TRAINING SCHOOL**

Earl Martin, the fifteen-year-old boy, the majority of whom were youth arrested on a delinquency charge last Friday evening, was committed to the Boys' Industrial School at Lancaster by Judge Beatty this afternoon, after a hearing. It developed during the hearing that he had contributed to the delinquency of other boys and South Carolina.

Judge Beatty also announced after the hearing that the twelve-year-old school girl who pomped the letter to Martin, printed in last Saturday's Times, would be sent to a training school for young girls in the delinquency of other boys and South Carolina.

**KILLED BY CAR**

Albert Hodwell, aged 21, whose home is said to be near Garrison, Ky., was run down and killed by a Scioto Valley traction car near Columbus, Wednesday. His body was fractured. It is said that M. Miller and D. B. Rowe were with Hodwell when he was killed and that they were on their way to Columbus from Portsmouth. Inquiry at Garrison today revealed that no one by the name of Hodwell was known there, and that officials there were investigating the young man's death.

**DR. FETTER TO WINTER IN FLORIDA**

W. J. Mitchell and family will move on December 1st from the A. J. Richardson property at Fourth and Olinde streets to Dr. Fetter's property at Fourth and Waller streets. Mr. Mitchell is employed at the office of the Portsmouth Engine Company.  
Dr. Fetter had intended to return to Gallipolis, but he has changed his plans and will leave shortly for Florida, where he will spend the winter. He expects to return to Portsmouth early next summer and resume his practice here. While Dr. Fetter is in Florida his mother, Mrs. Charles Fetter, will visit relatives in Virginia and North Carolina.

**Roll Is Missing**

Unaccustomed to the ways of a real live city, a Jackson countess, who gave his name later as C. J. Smith, landed here on a C. & O. S-W. train after dark Wednesday evening and made the fatal mistake of counting his roll in public.  
Smith was standing on Waller street between Fourteenth and Fifteenth streets and had just counted his thirty-third dollar when a colored boy rushed up from behind and grabbed part of the roll and disappeared down an alley in the direction of the N. & W. railway cut. A son of Grocer Judge Bellamy saw the boy grab the money and reported it to the police.  
The boy promptly admitted the theft but claimed he did not remember where he had concealed the money, of which he had but one dollar in his pockets. This victim was too drunk to tell his own name but had snatched up in time to appear in police court Thursday morning when he revealed his identity. He claimed to come to Portsmouth to visit a sister. The amount taken from his roll was \$11.  
Chief B. E. Allen and Officer William Osborn started out Thursday morning to renew the search for the money, taking young Roberts with them and unless it is found he will be turned over to Judge T. C. Beatty, of the juvenile court. Smith was fined \$5 on a charge of drunkenness.

# TROUBLES PILING UP FOR "MARRIED LOVER"

Troubles continue to pour in upon Lou D. Smith, the Ironton furniture man, whose relations with a young unmarried woman of this city brought him into unpleasant notoriety a few days ago.

Late Wednesday afternoon Sheriff Smith, armed with two writs of execution from the

Lawrence county common pleas court, closed up Smith's second-hand furniture store on Gallia street, recently opened. The goods will be sold to satisfy the judgments, one of \$44.23 and costs obtained by the Columbus Merchandising company and the other for \$214.00 obtained

by the Second National Bank of Ironton.

This morning Sheriff Smith received another execution of the judgment for \$42.32 and costs obtained by William Willis of Ironton. Attorneys Robinson and Russell came down from Ironton late Wednesday afternoon with the papers in the first two cases.

## John L. Grimes Honored By Wheeling Advertising Men

That Portsmouth boys will come to the front is evidenced again by the way John L. Grimes, advertising expert with the Whitaker-Glessner company, is coming to the front in Wheeling. The Times feels doubly proud of his success inasmuch as he deserves every bit of it and is also an ex-member of The Times advertising force. Concerning him the Wheeling Intelligencer says:

"The first session of the Wheeling Ad Club for the fall and winter season will be held, Tuesday evening, in one of the class rooms at the Elliott Commercial school. This is the opening of a series of

educational meetings intended to help the members of the ad club in the more intelligent practice of advertising.

Members are looking forward with interest to the report of John L. Grimes, the new chairman of the educational committee. Mr. Grimes is a recent addition to the club, having moved here from Portsmouth, Ohio, to take charge of the advertising of the Wheeling Corrugating company, and the Whitaker-Glessner company. He will make a report outlining the work for the winter.

"As drawn up roughly by the executive committee of the ad club recently, the plan is to develop the study of advertising along three lines. The first will be 'The Psychology of Advertising,' using Prof. Walter Dill Scott's book on the subject as a guide. The second will deal with the technical details in the preparation of an advertisement, and the third will be an effort to improve the members in the use of clear, forceful, space-saving language, such as is most effective in advertising and business correspondence.

"Regular lessons will be assigned for each meeting and a different man will have charge of each subject. Prof. W. B. Elliott and Prof. J. Walter Ross, of the Elliott Commercial school, will have charge of Psychology and English, respectively, and John L. Grimes will direct the study of 'Preparation of an Advertisement.' The meetings will be semi-monthly, the course will be free to members of the club, and all persons interested in the subject of advisability are eligible for membership."

**More Trouble**  
The mayor has addressed a letter to the J. F. Witmer company, of Buffalo, N. Y., calling attention to the latest difficulty being experienced in back flushing the intake pipe at the new water works.

## Winter's Bitter Blasts

The small boy, with exuberant health, dreams of the time when he will be an Arctic explorer. But how these dreams vanish as the years go by! Age plays the same trick with the "Ninety and nine."

The coming of winter, to that person who is in run-down health, under weight, and having poor circulation, is like unto the coming of a pest. This feeling of dread, is nature's warning against the double attack of catarrh and its kindred ailments, during this season of the year.

Wisdom is shown by those who are ailing, in making an early effort to get into better physical condition, before the severe weather sets in.

Remarkable instances are being reported, of gains in weight, increased vitality and relief from maladies of long standing, through the use of the new medicine Tanlac. Those telling of their personal experience with Tanlac, are Portsmouth's best citizens. They may easily be seen. "Tanlac is a great medicine,"

states J. W. Lucas, who is carpenter for the Selby Shoe Co. I think there is nothing to equal it for stomach and liver trouble. It has done me a great amount of good."

The above is typical of thousands of statements that are being made regarding the "Master Medicine". In just nine months since this remarkable remedy has been on the market, one million bottles have been sold. This is one outstanding proof of its merit.

Tanlac is purely a product of herbs, roots and flowers, compounded into a uniform preparation by the great German chemist Trimback.

For catarrh of the head, throat and stomach, liver, kidney and intestinal troubles, and rheumatic conditions, Tanlac acts like magic in assisting to restore health.

Tanlac is known as the "Master Medicine". It can now be purchased in Portsmouth at the Fisher & Streich Pharmacy, corner Sixth and Chillicothe Sts., where representatives are daily explaining Tanlac. Adv.

## Mrs. Minego Falls From A Stepladder

Mrs. Florence O. Minego, wife of Frank Minego, a shoemaker, was seriously injured in falling from the top of a high step ladder at their home, 1633 Twelfth street Thursday morning about 8 o'clock. Mrs. Minego was engaged in cleaning wall paper when suddenly she was seized by a dizzy spell, which

caused her to lose her balance and fall from her high and perilous position. Neighbors were attracted by her screams and hurried to her assistance. Dr. S. S. Halderman was called to attend Mrs. Minego. She was suffering so greatly from shock that the exact extent of her injuries could not be determined.

### KEG PARTY NOT ON SALOON PREMISES

Bird S. Garthee, Chillicothe street saloonist, who had a hearing before the county liquor licensing commission Wednesday, denies, through his attorney, C. M. Seard, that the keg party held last primary election day was on the rear of his premises. He claims that it was held in the barn of O. P. Stewart on Tenth street, almost a square away from his place of business. An investigation of the facts substantiates Garthee's denial.

## JOINS RANKS OF THE "NEVER-SWEATS"

The Portsmouth Store and Range company are making a gas heater that they guarantee will not cause dampness on the walls of a room, nor give the persons in the room a headache. They are very low priced, and very substantially made—no thin flues to rust out. Has a cast iron haffle plate over the fire, body made of heavy polished sheet iron. Large, solid-cored cast iron burners. Made in five sizes, two finished—plain and nickel—a size and finish to suit every person and every pocketbook. They're Made in Portsmouth, and The PORTSMOUTH STORE AND RANGE COMPANY stand back of them absolutely. When you buy your gas heater see that your dealer shows you the STAR-EQUITY or the SOLAR-EQUITY.

# Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise care The Daily Times, Portsmouth, O. Office Phone 60.

Dear Dolly.—In Tuesday's paper some one inquired if there was a home for soldier's widow in Ohio. There is a home for soldiers and sailor's widows at Madison, Lake County, Ohio.

A READER.

Dear Miss Wise.—What would be an appropriate menu to serve at a little Thanksgiving supper. I mean at a party, the lunch to be served about 10 or 10:30.

PANSY.  
Chicken or turkey sandwiches would be decidedly "the thing." Here is a very delicious way to make them: Toast slices of bread of a medium thickness (get one of the large loaves of bread for this purpose), remove crust, and butter. Spread on a thick oil mayonnaise—have ready slices of chicken or turkey and place them, with a lettuce leaf, between toast. This could be served with olives and celery and salted almonds. A

## Don't Merely "Stop" a Cough

Stop the Thing that Causes It and the Cough will Stop Itself

A cough is really one of our best friends. It warns us that there is inflammation or obstruction in a dangerous place. Therefore, when you get a bad cough don't proceed to cure yourself with a lot of drugs that merely "stop" the cough temporarily by deadening the throat nerves. Treat the cause—beal the inflamed membranes. Here is a home-made remedy that gets right at the cause and will make an obstinate cough vanish more quickly than you ever thought possible.

Put 2½ ounces of Pinex (50 cents worth) in a pint bottle and fill the bottle with plain granulated sugar syrup. This gives you a full pint of the most pleasant and effective cough remedy you ever used, at a cost of only 54 cents. Send for it at once. Full directions with Pinex.

It heals the inflamed membranes so gently and promptly that you wonder how it does it. Also loosens a dry, hoarse or tight cough and stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent lough.

Pinex is a highly concentrated compound of Norway pine extract, rich in gaultherin, and is famous the world over for its healing effect on the membranes.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex," and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

## TIMES SERVICE PATTERN

1471

1471. A simple, serviceable model.

What housekeeper or home worker does not appreciate a "cover-me-all" apron of this kind? It is a simple style, good for gingham, lawn, percale, cambric, denim, cretonne or saten. The fullness may be held over the back by the belt, that may be slipped under the front or may hold the front on the outside. The pattern is cut in three sizes: Small, Medium and Large. It requires 5½ yards of 36-inch material for the Medium size.

A pattern of this illustration mailed to any address on receipt of 10c in silver or stamps.

CAUTION—Order adult patterns by number of pattern, giving bust measure for waist patterns, and waist measure for skirt patterns. For Misses and Children give number of pattern and age only.

## CAUTION

fruit salad, and of course coffee could be added if you want to make your supper a little more elaborate.

Wheelerburg, Ohio.—Dear Miss Wise.—Would be thankful for answers to the following: (1) Are kissing parties proper to indulge in or are they objectionable? Please express your opinion freely on this: Are you opposed to a civil group of young people spending an evening at dancing in a private rural home?

"PANSY."  
Kissing games are not only foolish, but dangerous, as contagious diseases are often spread in this way. Can't you think of any other games? There is no reason why a group of select young people cannot enjoy a "hoe-down" in a private home in the country or elsewhere.

Dear Miss Wise—I am a little New Boston reader and would like a recipe for pop corn balls.

LITTLE BOY BLUE.  
Salt the corn when popped, take two cups of New Orleans molasses, one cup brown sugar, 1 tablespoon of vinegar, butter size of a walnut, boil 15 minutes, put in ½ teaspoon soda five minutes before done, pour over corn and make into balls. Flour the hands so the corn won't stick to them.

Dear Miss Wise—Is it proper for a fellow of seventeen or eighteen to be out as late as a boy of nineteen? How late should a boy of that age stay out?

WILLIAM.  
Circumstances govern such matters. If you attend some place of amusement of course you can't be in very early, but if not, 10 o'clock is late enough to stay out. Don't get into the habit of loitering around on the streets, William.

Dear Miss Wise.—Will you please tell me the correct population of Portsmouth.

A READER.  
28,461.

Dear Miss Wise.—Please advise me how to remove a stain from a flesh-colored Georgette crepe waist? I was wearing a blue tailored coat over the waist and a friend of mine spilled a bottle of perfume over it on the shoulder of the coat, which caused a large blue stain on the waist evidently the dye from the blue silk lining of the coat.

SARAH.  
As I have had frequent occasion to say before this, the task of extracting stains from colored fabrics is hazardous and the re-

sult always doubtful even when the operator is a skilled professional. In the hands of an amateur it usually means failure and chagrin. Were the garment mine I should take it to a skillful cleaner who would say at once if the work might be attempted with a fair hope of success. You will undoubtedly ruin the waist were you to try to eradicate the stain yourself. Since your suit is blue why not color the waist. You could do this with dye, blueing or blue ink.

Dear Miss Dolly.—What steps can I take to keep people from getting in front of me while trying to get into the movies when there is a good show on?

LITTLE MIDGET.

## SOCIETY

Most beautifully appointed was the luncheon given at one o'clock today at the elegant home of Mr. and Mrs. L. P. Haldeman, on Gallia avenue, where their charming daughters, the Misses Augusta and Helen Haldeman, entertained as a bridal favor to Miss Elizabeth Watkins, who will be married in December to Mr. C. O. Dodson, of Terre Haute, Ind. The handsome mahogany table was laid with elegant lace center-piece and doilies, green and gold china, silver and sparkling cut glass. The colors were pink, green and white. In the center a French basket was filled with gorgeous pink roses and emilax. The places were marked with cards hand-painted in cupids and bride roses. The favors were tiny baskets hand-painted in cupids and filled with pink, green and white heart-shaped bon-bons. The bride's place was marked with a corsage bouquet of bride roses, tied to her chair with a large bow of tulle, and at her place was a dainty doll attired as a bride, with a long flowing veil of tulle, as souvenir of the joyous occasion. The table was surrounded by a boy of beautiful young girls, attired in their smartest gowns, which added to the beauty of the party, there being Misses Augusta and Helen Haldeman, Elizabeth Watkins, Elizabeth Bannan, Helen Dunn, Amyrill Crawford, Sallie Smith, of New York, Ruth Clark, Mary Davidson, Nell Turley, Marjorie Pursell, Mrs. J. L. Watkins and Mrs. Charles Tall, mother and aunt of the bride-to-be, and Mrs. L. P. Haldeman. The delicious menu was beautifully served in five courses, everything possible being served in heart-shapes, the biscuits, cakes, bon-bons and ices, all in heart-shapes in the green, pink and white colors. The electric bulbs were shaded in delicate pink shades, and there could be no prettier place for a luncheon than in the elegant dining-room at the Haldeman home, done in the pink, white and green colors. Each of the guests brought an original poem appropriate to a bride, which were read between the courses. After luncheon Mrs. Charles Tall played Mendelssohn's Wedding March. To the strains of which little Miss Eleanor Haldeman, sweet little daughter of the household, attired as a bride, in long trained pink dress and veil of tulle, came down the staircase carrying a gilded basket filled with beautiful gifts for the bride. Over the top of these were lovely pink roses and ferns. This part of the entertainment was a great surprise to the bride-to-be, who enjoyed opening the dainty parcels concealed in the pretty basket. She certainly was beautifully remembered by each of the guests, and it was hard to decide which was the prettiest of the gifts. Many pretty parties are being planned for this very popular young bride-to-be, to be given in the near future, including an entertainment of the Dalton Auction Bridge Club next Tuesday afternoon at the home of Mrs. John A. Grimes, on Second street.

Step on their corns.

Dear Miss Wise.—What would be the proper way to approach a lady whom you were only slightly acquainted with should you want to give attention to her?

BEN.  
Some time when you meet her ask if you may call. Or if she has a telephone call her up and ask.

Dear Miss Wise.—Will you be so kind as to tell me how to clean a white feather boa that one wears about the neck?

MINNIE.  
Shake gently in the fresh air to clear it of dust, separating the filaments to dislodge lurking particles. This done, wash the boa in clear gasoline. Souse it gently up and down in the fluid a dozen times, shake free of clinging drops, and hang in the wind to dispel the smell, shaking several times while it is drying to restore the fluffiness. Do all this out of doors if practicable, and in the daytime, with no artificial light near.

For washing dishes use a teaspoonful of Gold Dust to a full dishpan of hot water.

Follow the simple directions on every package of Gold Dust.

## For washing dishes

This is one of the uses in which Gold Dust is supreme.

But remember that its use is not to be limited to washing dishes.

Gold Dust cleans, brightens and beautifies everything in the house.

It is safe, quick, and sure.

Millions of women have learned that it is the one washing and cleaning powder for all cleansing and purifying purposes.

It cleans floors, linoleum, kitchen utensils, bathtubs and bathroom fixtures, windows, fine woodwork, silver, plated, copper and nicked and enameled ware—

And it does not scratch or mar. In the truest sense Gold Dust really works for you.

It penetrates corners that can not be reached with fingers or wash cloths and takes out dirt and grease. In addition to its activity as a cleaning powder, Gold Dust acts as a disinfectant.

It makes everything clean and pure. Gold Dust is the only cleaner you need. Its popularity is universal.

It is inexpensive and indispensable.

# SCHEDULED GAMES IN MASONIC BOWLING LEAGUE

## To Pry Off The Lid Tuesday Evening, Great Race Promised

George Wurster, captain of the Rexalls, and chairman of the schedule committee, has completed his work in arranging the various games of the ten teams in the Masonic Bowling League, and the schedule is printed below. The league, it will be observed, opens at the Play House on next Tuesday evening when the Cement Specialists will meet the Submarines on alleys 4 and 5, while the Bald Eagles will hook up with the Ironsides on alleys 2 and 3. On Thursday evening the Ivory Knobs buckle down to work against the Clod Hoppers on alleys 4 and 5. On the following evening (Friday) the Rexalls meet the Corn Shuckers on alleys 2 and 3. Games this year will be rolled on Tuesday, Thursday and Friday nights. The first half of the race will extend until Friday evening, January 28. Then a new season will start, at the close of which the winners of the first half, will play a series of games with the leaders of the second half, which will be termed the world series—the winners to be declared the champions of the league. It will be noticed that no games will be rolled during Christmas week. The schedule committee will mail to each member of the league a card containing the games in which he is to participate together with the dates. All in all the arrangements so far made have met with the hearty approval of the entire membership and the league promises to be an unqualified success. The teams as a whole have been evenly balanced and the team that wins the flag will know it has been in a battle. The schedule follows—clip it out:

## HARVARD IS FAVORITE

Cambridge, Mass., Nov. 18.—The hard campaign of preparation for the Yale game ended. The Harvard football team was prepared to receive the applause of the undergraduates in the stadium today. The students rallied to give the players an enthusiastic send-off to their retreat on Tyngs Island, in the Merrimack river, where they will seek complete relaxation until Saturday. In spite of the warning of Coach Houghton that the chances in the game should be regarded as even, many bets were placed at 10 to 5 on Harvard.

## Waiting On An Answer

P. H. S. is waiting on an answer from Ashland as to why they cancelled their game here with the second team of P. H. S., which was to have been played at Millbrook. Ashland beat P. H. S. in Ashland three weeks ago. The second team's lineup for this Saturday would have been much stronger than when the team played at Ashland. Wilson and Brandel of the first team would be seen in the second team's lineup. With Geiger, Moler, Wilson, Teat and Brandel in the lineup the Ashland eleven would have a hard time repeating the score of three weeks ago.

## Club Team In The Field

The fast Club basketball team will be in the field again this season. The Club team will play a number of independent games during the season. Teams from surrounding towns will be brought here. The games will be played in the Club on Fourth street. Among the players in its lineup will be Egbert, Graves, Woods, Staton, Schultz and Schlichter.

New York, Nov. 18.—Jim Gilmore, the fighting Federal, apparently pulled all the tail feathers out of the peace dove today with a flat-footed announcement that the Federals positively and absolutely will have a team and a park in Manhattan next summer. "In a week or so we will make a detailed announcement of our plans," said Gilmore.

## ILLINOIS TO HAVE HER FULL STRENGTH

Urbana, Ill., Nov. 18.—Illinois will go into the Chicago game Saturday with her full strength. Both Pogue and Clark, two of the best players the Middle West has produced, will be at their respective positions of half-back and quarterback.

From Media, Pa., Wednesday came a flat denial by Home Run Baker of the rumor that he will play with the Yankees. Baker dropped a hint he might play with the White Sox if he came back to the big leagues at all, but said he never will play with the Yankees.

Seattle, Wash., Nov. 18.—The Northwestern baseball league will be composed next year of Vancouver, Seattle, Tacoma, Spokane, Butte and Helena, according to President Blawett of the league. Negotiations with the Montana cities are practically completed.

## SUFFERS BAD SPRAIN

Russell Rutledge, 15 year old son of Mrs. J. T. Rutledge of 123 Lincoln street, had his right ankle badly sprained Wednesday afternoon in football scrimmage on the Heid lot on the Hilltop. Rutledge is a times carrier.

## Crippled Team To Face Jackson Team

With Fullback Wilson and Center Brandel out of the game on account of low studies, the P. H. S. lineup will present a crazy-quilt appearance when it takes the field against Jackson at Jackson, Saturday.

Any other two players on the team could have been left out without being so greatly missed. Wilson is to P. H. S. what Captain "Shorty" Davis is to the Ironton team. It takes Wilson to start the line plunges and to make the big gains. Brandel is one of the best all-around men on the team. Not another player can fill his place at center, while he has been proving his worth as a tackler.

Grassman, the third player out, is only a substitute and has turned in his suit and will not try to make

the lineup for the Thanksgiving Day game with South High of Columbus. Saturday Morning will play in Brandel's place. Marting played center in the first two games this season and made a good showing. It will be hard to fill Wilson's place.

Trone, Breece and Thomas are extra backfield men. Trone will likely be put in at half-back with Wagner or Shoemaker going to fullback. Wagner, half-back, played in the fullback position in the Ironton game when Wilson was out. Quinn, who has been called back from the line to do the punting and end running, will have to do his part to fill Wilson's place. Jackson will be a tough proposition for P. H. S. for the game at Millbrook was only won by P. H. S. by the small score of 7 to 0.

## MAY PLAY HUNTINGTON

The Ironton Register says: The Portsmouth Hi officials have declined to cancel their Thanksgiving Day game with a Columbus Hi school and arrange for a game between Ironton and Portsmouth Hi schools for a final game, but Manager McKee of the

I. H. S. team, is keeping the wires hot to arrange for a game for that day.

This morning he made an offer to the Huntington school for a game to be played at Beechwood which would mean the renewing of athletic relations between the two schools.

## TAKEN TO ATHENS

John Stockham, the Madison township farmer, who suddenly lost his reason Wednesday morning, was adjudged insane in pro-hate court Wednesday evening.

and will be taken to the Athens hospital for the insane today or tomorrow. It is hoped that his condition will respond to treatment.

## PIERS COMPLETED

The Dravo Constructing Company of Pittsburgh has completed its work of building C. & O. Northern bridge piers at Sciotoville and on the Kentucky side of the river. A number of small concrete piers quite a distance under the water

will be used for supports for false work to hold the structural iron work. After the bridge is completed the small piers will be blown out. The contracting company's steamer Lyda arrived at Sciotoville, Wednesday, and is moving all equipment of the company to Parkersburg.

Wickets down at Parkersburg. Rain over upper Ohio valley to night and Friday.

River will fall slowly. H. C. DONNALEY, River Observer.

The Ohio river is reported rising slowly in the Pittsburgh district. Last Thursday morning was 20 ft. The rise stopped all government dam and dredge work. Although there is a large stage at Pittsburgh, very little coal will be sent South, as in that city taking practically all of the present supply.

The Pittsburgh towboat, Harry Brown, while en route from the South with a tow of empties, struck a snag at Goodsville, Ark., Monday, tearing a hole in her hull eight feet long. The boat sank in 10 ft. of water. She was a fine big boat and valued at \$80,000.

## When You Can't Smoke

that's the time to chew FIVE BROTHERS. When you can smoke—that's the time to choose FIVE BROTHERS.

This pure Southern Kentucky tobacco is the great favorite with men of vigor. It is full-bodied and satisfying. It gets its pleasant richness from the natural aging we give it for three to five years. And that is what keeps its quality up, always the same, no matter what the year's crop may be.

## FIVE BROTHERS Pipe Smoking Tobacco

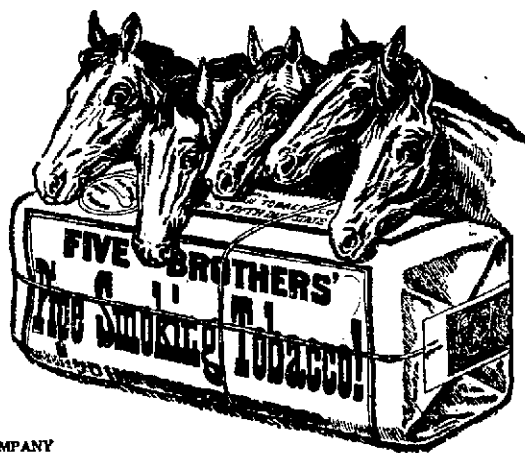

has always given prime pleasure to manly men. A FIVE BROTHERS man never switches to another brand; he knows he's losing time and pleasure on a needless experiment. Many brands come and go into the discard—while FIVE BROTHERS holds old friends and makes new ones every day.

There's a snappy taste to FIVE BROTHERS that policemen and other big fellows like. It's got that man-size quality about it; not one of those insipid, next-to-nothing tobaccos—but the big king-brand for the he-men on the force.

A week's trial will make you a permanent user of FIVE BROTHERS—go to it today.

FIVE BROTHERS is sold everywhere.

# USE OF CLARIFIED WATER FOR FLUSHING IS WASTE

SAYS MAYOR FRICK

To People Who Are Under Normal Weight

Good Advice For Thin, Undeveloped Men and Women Who Want to Put on Flesh

Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs who having tried advertised flesh-makers, food-fads, physical culture stunts and rub-on creams, resign themselves to life-long skinniness and think nothing will make them fat. Yet their case is not hopeless. A recently discovered combination of assimilative agents has made fat grow after years of thinness, and it is also unequalled, judging from reports, for repairing the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable preparation is called Sargol. Six strength-giving, fat-producing assimilative elements of acknowledged merit have been combined in this preparation, which is endorsed and used by prominent people everywhere. It is absolutely harmless, inexpensive and efficient.

A few weeks systematic use of Sargol should go far to produce flesh and strength by correcting faults of digestion and by supplying nourishing fats to the blood. If not, every druggist who sells it is authorized to return the purchase price. Increased nourishment is obtained from the food eaten, and the additional fats that thin people need are thus provided. The Fisher & Streich Pharmacy and other leading druggists supply Sargol and say there is a large demand for it.

While this new preparation has from reports given splendid results as a nerve-tonic and vitality-giver, its use is not recommended to nervous people unless they wish to gain at least ten pounds of flesh.

## Attention Of Council Called To This Matter; No Action Taken Last Night On Street Fairs

"It's a shameful waste of the city's money to buy chemicals with which to clarify water and then use this clarified water for back flushing leaves off the strainer," thus Mayor Frick expressed himself on a situation at the new water works reported at Wednesday night's meeting of city council.

"It's only another defect of the system. The very idea of back flushing through the intake tunnel with your clarified water. It is one of the defects council will have to remedy before accepting the plant," the mayor asserted.

The subject had been broached by Councilman Wilson. He said George Shute, the city's sanitary hydraulic engineer, had called his attention to the situation caused at the pumping station due to the lone method available for back flushing. During the process of back flushing water was drawn from out of the city mains. Naturally this materially reduced the pressure and the higher buildings and the hill top residents were the chief sufferers. He spoke of the danger of such a situation in the event of a fire. Mr. Shute he said, had suggested that a connection be made with the settling basins and that the raw water there be used for back flushing. He thought the cost of the connection would not exceed several hundred dollars. He therefore moved that the service department investigate and bring in a recommendation.

### Condition Worse When River Is Up

President Cook called upon Mr. Shute for an expression and he corroborated Mr. Wilson's remarks, adding that the condition was particularly bad when river rises occurred. The recent drought had caused leaves in abundance to be washed against the strainer until it was necessary to back flush almost every hour and this has the effect of drawing all the water off the hill. He recommended that the connection referred to be made, saying it would be a good thing anyway if the present conditions did not prevail and said there was some pipe on hands that could be utilized for the purpose.

Chairman Moeller, of the water and light committee, recommended the extension of water mains out Scioto Trail and up Mabert Road and upon his motion the matter of issuing bonds for that purpose was referred to the engineer for an estimate and solicitor for legislation.

Following a whispered conference with his fellow members of the finance committee Mr. Osborn announced that it was the wish and sense of the committee that the solicitor prepare the legislation as soon as he receives the engineer's estimate for the water extensions and bring both in at the same time.

### Just Handed To Wilson, That's All

Chairman Wilson, of the police and fire committee, enacted a dodging stunt in presenting the proposed ordinance of the Business Men's Association, regarding street fairs. Mr. Wilson explained that it had simply been handed to him and that he did not know if it was intended for him alone or someone else, at any rate he was not familiar with it and therefore moved to refer it to the committee on ordinance. This provoked a laugh at the expense of Mr. Westphal, chairman of the ordinance committee who for the past two years has had the "distinct pleasure" of quietly sitting back in his chair and seeing ordinance after ordinance introduced over his head or without having first been presented to him. "I have been ignored in the past, but if I get the pleasure of handling that I'll accept it," smilingly exclaimed Mr. Westphal he alone voting against referring the ordinance to his committee.

### More Money Needed For Street Cleaning

Director Gergens, of the public service department, called attention to the need of more money for street cleaning purposes. He said the newly paved streets added greatly to the department's work and Gallia pike particularly had become quite a drain on the funds available. He said that there had been so much dust and dirt on the street due to overloading wagons hauling dirt from the hill top additions that it became necessary to sweep and clean the street twice weekly in order to keep down complaints. He said that with the money left it would be possible to keep up the street sweeping only for the balance of the present month and if the work was to be kept up during December there would have to be a special appropriation made. He thought \$500 would be a sufficient sum. Upon motion Mr. Osborn the solicitor was directed to bring in a special appropriation for that amount.

### Linden Avenue Matter Brought Up

Chairman Gulker, of the street committee, brought up the proposed plan of changing the Linden avenue improvement from a 30 ft. to a 40 ft. width.

Mr. Gulker said it was the custom of council to acquiesce in the wishes of property owners as much as possible and he therefore moved to refer the matter to the engineer for an estimate and to the solicitor for legislation. President Cook, who himself is one of the petitioners asking for the change, took the opportunity for explaining to council the position that City Engineer Wilhelm had taken. He said the engineer was perfectly honest, he thinking only of saving as much money as possible to taxpayers and thought that 30 ft. would be sufficient width for a side street. The property owners thought felt that the street had been donated to the city for a 60 ft. street and that they were entitled to have at least a 40 ft. width in the improvement.

A communication from the mayor advising of the action of the board of control in first asking the pleasure of council before awarding the Linden avenue paving contract, was read and placed on file.

### Streets Needs Attention; No Action Is Taken

Mr. Shump inquired about the situation relative to graveling Jackson street. Service Director Gergens replied that the street undoubtedly needed something but that there was no money available. Mr. Gulker felt that the only cost would be the hauling as Mr. Reinert had agreed to furnish the gravel. Mr. Gergens thought to haul and spread the gravel alone would cost \$160. The mayor said his recollection of the estimate was that it was \$360. No action was taken.

A petition presented by Mr. Gulker asking that Maddock alley between Third and Jackson street be put in passable shape was referred to the service department for repairs.

A petition asking for a sanitary sewer in the alley running east from Sinton street to the center of Waller street, between Front and

## FALLS THROUGH BRIDGE; SUFFERS A BROKEN HIP

William Mills, 25, colored, of Cincinnati, an employee of the Ohio Valley Traction Company, had his left hip fractured about three o'clock Wednesday afternoon, when he fell from the traction line bridge over Wizard Oil Creek bridge, about

four miles above Wheelersburg. Mills was driving bolts and a piece of rail flew up, hitting him in the side and knocking him from the bridge. He landed in a heap a short distance below. Fellow laborers rushed to his side and thought he

was suffering with a broken back. The company physician, Dr. J. F. York, from Sciotoville, was summoned and he moved the man to the hospital, where an examination showed a fractured hip and badly wrenched back. Thursday he was resting easy.

### Second streets, was referred to the street committee.

Auditor Gableman reported a net balance October 31 of \$61,816.50 with orders outstanding, amounting to \$2,048.50.

The solicitor was instructed to bring in legislation for a storm and sanitary sewer between Grandview and Timmonds avenues which will take care of 30 properties and cost \$745 and also a similar sewer between Hutchins and Franklin avenues from Seventeenth to Twenty-first street to take care of 40 properties and cost \$820.

Upon motion of Mr. Osborn resolutions were passed accepting the reduction to \$25,000 of the surety bond of the Central National bank as a public depository. **Misunderstanding About Crossing Matter**

Mr. Westphal reported that there must be some misunderstanding between the city and N. & W. regarding the Gay street improvement. He said the company was piling rock between the tracks instead of planking. Mr. Gergens told of a crossing the company was putting in that was lower than the curb and would endanger traffic during freezing weather. He said the men in charge of the work told him that they were acting on instructions from Division Engineer Losh. Engineer Wilhelm had sought to take up the matter with Mr. Losh Wednesday but found him absent and felt he made the mistake of "mussing it up with a subordinate" for he was all but thrown out of an eighth story window of the skyscraper. He asked under what franchise the N. & W. was operating that it could do as it pleased and show no consideration to vehicular traffic. He said the railway had taken the very heart out of the street, particularly between Twelfth and Thirteenth streets.

Solicitor McCall said the N. & W. had no franchise but was "simply there because they are there," but believed that if the matter be taken up with them they would plank between the tracks rather than take chances in testing out their rights in a street. Mr. Cook suggested that the service director had the authority to bring the company to time. Mr. Gergens thereupon declared his intention of notifying the company it would have to plank between the rails.

### Still Rests With County Commissioners

Mr. Cook asked Mr. Gulker if his committee had any report to make on the matter of the new county bridge approach. Mr. Gulker replied that it still rested with the county commissioners who he understood were now likely to purchase the three or four houses at the approach if Engineer Somerville recommended it. The prosecuting attorney, too, had held it was legal and he believed the proposition would go through. Mr. Gulker felt that early action ought to be taken for the houses clearly stood in the way of the new bridge.

### The \$500 bond submitted by Constable-elect John Neu was unanimously approved.

A number of newly elected officials, among them Solicitor-elect Anselm Skelton, attended the meeting to get a line on how city bids perform. Mayor Adam Frick extended a glad hand to one and all who came to receive "the first degree" and graciously passed around cigars.

Magard formerly resided in subpoena for the couple, who are to New Boston.

## Better Hurry Buy That Season Ticket

Although the public is responding to the appeal to buy more high school lecture course tickets, there are still about 300 tickets to be sold to insure the financial success of the course. The fact that people are buying tickets right along, even though two numbers have passed, shows that many have hitherto given the matter little or no attention. Every patron of the schools should at least consider the idea of getting a ticket. He should look carefully over the list of entertainments and pick out the numbers which he would like to hear. Many persons will neglect to buy a season ticket but will attend four or five entertainments, paying fifty cents at the door each time. These sums soon amount to more than the price of a season ticket.

If you are thinking of attending just a few of the entertainments, consult a friend and arrange to buy a season ticket between you. Many find this method satisfactory, as well as cheap. If you haven't a ticket you will probably be approached by several high school students as the sale of tickets is being pushed as it never was before.

## DEBATE DATE CHANGED

At a meeting held Wednesday afternoon by members of the Junior and Senior classes of the high school it was decided to change the date of the Junior-Senior inter-class debate to Monday Nov. 22. The former date was Friday Nov. 26. The debate will be held in the high school auditorium in the evening. Tickets will be on sale Friday. The proceeds will go towards financing the High School News for the rest of the school term. The debate is on the question, "Resolved, That Suffrage Should Be Restricted by Educational Qualifications."

## SUDDEN DEATH

Caused By Disease of the Kidneys.

The close connection which exists between the heart and the kidneys is well known nowadays. As soon as kidneys are diseased, arterial tension is increased and the heart functions are attacked.

When the kidneys no longer pour forth waste, uric acid poisoning occurs, and the person dies and the cause is often given as heart disease, or disease of brain or lungs. It is a good insurance against such a risk to send 10 cents for a large trial package of "Annie" — the latest discovery of Dr. Pierce. Also send a sample of your water. This will be examined without charge by expert chemists at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. When you suffer from backache, frequent scanty urine, rheumatic pains here or there, or that constant tired, worn-out feeling, it's time to write Dr. Pierce, describe your symptoms and get his medical opinion—without charge and absolutely free. This "Annie" of Dr. Pierce's is 37 times more effective than lithia, for it dissolves uric acid in the system, as hot water does sugar.

Simply ask for Dr. Pierce's Anuric Tablets. There can be no imitation. Every package of "Annie" is sure to be Dr. Pierce's. You will find the signature on the package just as you do on Dr. Pierce's Favorite Prescription, the over-famous friend to ailing women. **Worry, Despondency**—Kidney Disease is suspected by medical men when patients complain of backache or suffer with irregular urination, disturbed, too frequent, scanty or painful passage. The general symptoms are rheumatic pains or neuralgia, headaches, dizzy spells, irritability, despondency, weakness and general misery. Worry is a fretted, worn-out feeling, it's time to write Dr. Pierce, describe your symptoms and get his medical opinion—without charge and absolutely free. This "Annie" of Dr. Pierce's is 37 times more effective than lithia, for it dissolves uric acid in the system, as hot water does sugar.

## Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries twenty-two per cent, or nearly one-quarter, die before they reach one year; thirty-seven per cent, or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infant deaths are occasioned by the use of narcotic preparations. Drugs, laxatives and soothing syrups sold for children's complaints contain more or less opium or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of J. C. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and always cures.

Genuine Castoria always bears the signature of J. C. H. Fletcher.

## Pyorrhea—the disease nearly everybody has

No matter how sound your teeth may seem to be, no matter how you may scoff at the idea of your having this disease, it is a positive fact that the germ which causes it is working now in your teeth.

The appalling discovery of this fact—that the germ which causes pyorrhea is one which inhabits every human mouth—was made over a year ago. Since then dentists have been urging everyone to take special precautions in their daily toilet to prevent this disease from developing in its acute form of bleeding gums, tenderness in chewing and loose teeth.

To meet the need for such a daily treatment and to enable everyone to take the necessary precautions against this disease, a prominent dentist has put his own prescription before the public in the convenient form of Senecio Tooth Paste. Senecio contains the best corrective and preventive for pyorrhea known to dental science. Used daily it will successfully protect your teeth from this disease. Senecio also contains the best harmless agent for keeping the teeth clean and white. It has a refreshing flavor and leaves a wholesome clean, cool and pleasant taste in the mouth.

Start the Senecio treatment tonight—full details in the folder wrapped around every tube. Symptoms described. A 25c two oz. tube is sufficient for six or eight weeks of the pyorrhea treatment. Get Senecio at your druggists today, or send 4c in stamps or coin for sample tube and folder. Address The Senecio Remedies Co., 505 Union Central Bldg., Cincinnati, Ohio.

# CLAIM WOMAN TALKED OF OPERATIONS TO GET MORPHINE

## Police Say She Has "Worked" Physicians For Drug; Arrested

That Dr. Carl Braunlin, son-in-law of Mayor Adam Frick, either raised his calling or should have chosen slumming as a side issue to the medical profession, was again evidenced Thursday when he was the means of rounding up a couple for whom the police had been searching.

It was the second time in the past few months that the young physician had enacted the role of a detective. His former victim, it will be recalled, was one J. R. Smith, a "fake railroad builder" who is still doing time in the Cincinnati workhouse for attempting to defraud local people.

The couple whose detention Dr. Braunlin caused Thursday was a young painter giving the name of James Mayor and a young woman claiming to be his wife and giving the name of Hazel Grace Mayor.

The young woman was detained on an affidavit filed by Mrs. S. A. Scott, proprietress of the Colonial boarding house, charging her with the theft of two dozen silver table spoons, while the husband was locked up pending an investigation of the couple's general conduct.

Mrs. Mayor vigorously denied the theft of the spoons. She had worked in the dining room Wednesday evening but said she left her work to assist a newly hired girl to do some washing and that Mrs. Scott herself cleared the table.

Mayor himself escaped arrest one day last week by his employer, W. G. Kiff, a contracting painter, coming to his rescue and holding back his wages for the amount of a board bill he owed Mrs. W. L. Liston of Washington street.

The above alleged transactions appear to be of a minor character when compared with the facts the police officials claim to possess and by which they expect to prove the woman to be an impostor. The officials charge that Mrs. Mayor's favorite stunt is that of

arranging fake surgical operations. They have the names of fully a half dozen physicians whom she has called to attend her. She would seek to win her way into their good graces, say the officials, to get a "shot of morphine." Since leaving the Liston home she has been rooming at 529 Third street. Dr. Braunlin was called to attend her there a few days ago. She appeared to be in great distress. He gave her a morphine injection to quiet her. Then she began asking what an operation for the removal of gall stones would cost her. She said she had a brother who is well-to-do and she was confident he would send \$300 to her if necessary. She said she would wire him that night. On his second trip Dr. Braunlin was surprised to find the woman sitting up and apparently well. He began growing dubious about her and decided to find out something about her. He soon learned that other physicians about town had also treated her and discussed surgical operations.

He then visited the telegraph offices and found she had not sent any message as claimed.

Dr. Braunlin decided to have no further dealings with the patient and sent her a statement for \$7.50. She promised to visit his office but failed to keep her word, he said. It was while looking up evidence against her Thursday that he caught sight of her supposed husband. At the sight of Officer Moore approaching from an opposite direction Mayor darted into a second-hand store and tried to conceal himself from view but Dr. Braunlin hailed the officer and had Mayor arrested.

The woman in the case first came to Portsmouth a few weeks ago. She posed as a trained nurse and claimed to own a large cotton plantation in Georgia but said she did not like the south and simply traveled about the country for pleasure. She is good looking and shows traces of refinement.

## LUXURIOUS TABLE LINENS

That Will Worthily Grace The Thanksgiving Table.

The President has proclaimed the National Thanksgiving Feast Day. The Old World is in the flames of War, while America enjoys Peace and Prosperity. This will be one of the most notable Thanksgiving Anniversaries in American history.

The thoughtful housekeeper is already thinking about the Turkey. Soon she will provide for the Mince and Pumpkin Pie. She will have the potatoes mashed and beaten to a foam, as a delicious vehicle for the rich brown gravy—for the "Thanksgiving Dinner" is the pride of her whole year—and perhaps members of the family are to COME HOME for the feast.

**BUT, ARE THE TABLE CLOTH AND NAPKINS PROVIDED?**  
Is your present best cloth adequate? Is it rich, lustrous, satiny, to give a gleaming radiance to the festive board?

The whole FINISH of the sumptuous Dinner depends on the table settings, and the Table Cloth and Napkins are most important of all.

### These Rich, Sumptuous Linens Will Double the Housekeeper's Pride

Absolutely pure flax, of heavy, luxurious quality, in exquisite new patterns, yet quite moderately priced in spite of tremendous advances owing to the curtailed production and importation caused by the war.

### Our Same Old \$1.00 Best-of-all Damask

Although the importer's price on our old \$1.00 stand-by is almost up to \$1.00 the yard, our price remains the same. For your Thanksgiving cloth you can purchase this wonderful value at the same low price we charged two years ago when there was no war. This linen is made of long thread yarns, a virtue hard to distinguish when the cloth is new but which lengthens the life of a cloth by fifty per cent over the ordinary, short thread yarn fabric.

Our line of patterns comprises only the most desirable. Napkins to match these pretty patterns, \$3.25 and \$3.75 in two different sizes.

## Our Art Department Wants To Attract Your Christmas Ear.

Splendidly equipped with a greatly varied stock of finished and stamped pieces for rich embroidery work, our Art Section wishes to call your attention to the adaptability of such articles for Christmas giving.

Nothing carries with it such a long remembrance of the giver as something you have made yourself. If purchased now, you will have ample time to embroider any of these handsomely printed pieces such as we name below, for Christmas giving to those very close and dear to you. But now is the time to make a start. Which of these would you rather secure? Remember, the prices below quoted include the stamped article complete and enough of the various colors of floss to finish the work.

## A MISTAKEN IMPRESSION MUST FINISH PAYING BY FIRST OF THE YEAR

Don't think that The Portsmouth Stove & Range Co. make heating stoves for burning natural gas only. While they manufacture a fine line of heaters and ranges for gas, they also make a specialty of high grade heaters for coal or wood.

As an illustration of the efficiency and durability of their coal heaters, they state that since the middle of August of this year, they have reworked and rebuilt over FIFTY MODEL-RADIATOR Air-Tight coal heaters, many of them having been used for more than 15 years. In each instance the owner declared they would not have any other kind of heater. Had these people bought an "out-of-town-made" stove, the cost of repairs would have been so high that it would not have paid them to "fix up" their stove. It pays to buy home-made goods. There are more MODEL-RADIATORS in use in Portsmouth than any other coal heater.

These heaters are of very heavy construction, with an extra large drum. Many of the so-called "air-tights" on the market have outside drums, so that its heating capacity is greatly inferior to that of a MODEL-RADIATOR.

Ask your neighbor about his "MODEL-RADIATOR". If you're dealer does not have them in stock, call No. 59 by phone and we will send you a booklet telling why the MODEL-RADIATOR AIR-TIGHT coal heater is the best heater made.

## 5,000 SERBS RETREATING FROM BABUNA PASS: MONASTIR TOTTERS AS BULGARS CONTINUE DRIVE

### SERBIA'S CONDITION STEADILY GROWING MORE DANGEROUS

Athens, Nov. 17.—(Via Paris, Nov. 18).—Five thousand Serbs who have been defending Babuna Pass against the attacks of twenty thousand Bulgars have been forced to abandon their positions and are retreating on Prilep, according to advices from Saloniki.

The Athenian's Saloniki correspondent confirms the re-occupation of Tetovo by the Bulgars, a victory regarded as of much importance because it may result in the cutting of lateral communications of the Serbian front.

London, Nov. 18.—Serbia's position is growing steadily worse, according to information obtained by the Reuters correspondent at Athens. The population of Monastir is fleeing to Florina, 16 miles south across the Greek border and Saloniki.

Prilep (Perlepe) is expected to fall as soon as Bulgarian forces arrive there from Tetovo. The danger of being surrounded by Bulgars coming from the west towards Prilep upsets the Serbian defense at Babuna Pass.

Desperate fighting is expected around Prilep and to the south of that point.

A Bulgarian force is advancing from Knahevo to shut off the Serbian line of retreat towards Kresna and the Albanian frontier.

### TROUBLES IN REPUBLICAN PARTY HAVE VANISHED, HERRICK TELLS AUDIENCE

Chicago, Nov. 18.—Critics that led to a split within the ranks of the Republican party have, in a large part, vanished and the forces are to be reunited, Myron T. Herrick, former ambassador to France, told members of the Hamilton Club in an address today.

The Republican party has become progressive, Mr. Herrick said, and through the willingness of each party to go half way in effecting a compromise, many progressives have returned to their former allegiance.

"This is a two party country," he said. "It has never had, and I presume never will have, those multiple divisions by which the citizenship of some other nations are split. Between the two wings of our party there is no difference as to the route, or direction, but only as to the speed limit."

There is no advantage in a three-party contest, which opens the way for tricks and trades. Any man can make his influences felt in any party, but he cannot translate it into an active force for good laws and good government unless that party is powerful enough to put its policies into effect.

### CHURCHILL GOES TO THE FRONT

London, Nov. 18.—Winston Spencer Churchill, former first lord of the admiralty and chancellor of the Duchy of Lancaster, in the uniform of his regiment, left for the front this morning. His wife bade him farewell at the railroad station where he passed unrecognized on the platform as he waited to enter a special car.

### Will Not Let Cabinet Of Portugal Quit

Paris, Nov. 18.—Premier Castro of Portugal, again proffered the resignation of the cabinet to President Machado yesterday but the executive refused to accept, requesting the ministry to remain in power until parliament gave some indication as to who would be acceptable as successors to the present members of the cabinet, says a Havas dispatch from Lisbon.

### ALL WOMEN FORCED TO DISROBE AND THEN SEARCHED: HIDING DOCUMENTS UNDER PLASTERS PASTED ON BACK

Paris, Nov. 18.—Amazing ruses are being employed by women spies along the Austro-Swiss frontier, according to a Geneva dispatch. The Austrians are forcing all women to disrobe and be searched.

Military documents recently were discovered concealed beneath a plaster on the back of a woman who carried her arm in a sling. All women travelers are taken to a bathroom, stripped and scrubbed with hot water.

Frequently thin pieces of paper on which military information is written are found stuck on women's backs and concealed beneath veneer or cosmetics.

### MANY ARE ADDICTED TO USE OF DRUGS

New York, N. Y., Nov. 18.—Fully 500,000 persons in the United States are addicted to the use of drugs, according to Dr. T. D. Crothers, president of the New York Medical-Legal Society. Dr. Crothers told the members of the society in a meeting last night that users of drugs are always more or less incompetent, impaired mentally and unable to judge of their own acts.

"The fact that they do not commit overt acts," he said, "is no reason why they are not dangerous. In a large majority of cases cause injury to others. Laws of protection and control must be enforced. The brain of a drug taker is suffering from palsy. The victim must be treated accordingly."

### NORWEGIAN STEAMER IS SUNK

Amsterdam, Nov. 18.—(Via London).—According to newspapers reporting the Norwegian steamer *Ulriken*, 1454 tons, from New York for Rotterdam has been sunk with the loss of five members of her crew.

### ANCONA FLED AT FULL SPEED

Washington, Nov. 18.—The United States probably will make no diplomatic inquiry of Austria-Hungary as to its attitude toward the conduct of submarine warfare as a result of the sinking of the Italian liner *Ancona* pending the receipt of detailed information concerning the attack from the following official at Vienna through Ambassador Penfield.

Sufficient information for an inquiry state department officials believe, however, is furnished by the Austrian foreign office statement concerning the tragedy which was eabled to the department yesterday by Ambassador Penfield.

The statement says that the *Ancona* fled at full speed when a warning shot was fired across her bow and denies the Italian government's charges that shots were fired at the steamer after she came to a stop or that her life boats were shelled.

### CITIES JOIN DEFENSE PLAN

New York, Nov. 18.—Mayors of about forty cities from Maine to California have followed the example of Mayor Mitchell, of this city, and have appointed committees to co-operate in national defense preparation. Among the cities whose executives have taken such action are: Huntington, W. Va.; Wheeling, W. Va.; and Ashland, Ky.

### A TWO DAYS BATTLE BRINGS VICTORY TO FRENCH OVER BULGARS

Paris, Nov. 18.—Important successes for both the French and British forces in Serbia are reported by the Athens correspondent of the Havas Agency, according to this information, which the correspondent says is unofficial, the Bulgarians have lost the town of Kasturino to the French and have been defeated by the British on the Valandovo-Rabrovo front.

The correspondent, whose dispatch was filed yesterday, adds that according to the latest news received by Athens newspapers, the French won a striking victory over the Bulgarians on the Tiltirkovo-Scheyo-Krusevitra front. The battle was waged for two days. The French were greatly outnumbered, but used their 3-inch guns with great effect. The Bulgarians are said to have sustained such heavy losses that they gave up the fight and retired northward to the right bank of the Vardar river.

### AUTHOR OF RITUAL OF ELKS DEAD

New York, Nov. 18.—Arthur C. Moreland, aged 68, widely known among the members of the Benevolent and Protective Order of Elks, and editor and publisher of the *Elks-Antler*, one of the leading publications of the order, died here yesterday. Two weeks ago he went to a hospital on account of gangrene in the right foot, and his condition became gradually worse. He was the author of the ritual of the order, adopted in 1883. He was stricken with blindness more than twenty years ago.

### AMERICAN'S STATEMENT DIFFERS WITH AUSTRIAN

Washington, D. C., Nov. 18.—Aldavites by Dr. Cecil Greil, the only native American survivor of the Italian liner *Ancona*, directly contradicts the Austro-Hungarian government's official statement that the ship was not shelled by the attacking submarine after she stopped. The state department today was notified of the existence of the affidavit by consular dispatches.

Belluno is in the Piave, 51 miles north of Venice.

### PRESIDENT WANTS SYSTEMATIC CONTROL OF APPROPRIATIONS

Washington, D. C., Nov. 18.—Centralization of appropriations of congress, on which President Wilson and house leaders conferred last night, will be the subject of another conference at the White House within a week, according to present plans.

The president has made it clear to advocates of the different methods of control of appropriations that he has no fixed preference for any of the plans suggested, but is anxious that some agreement should be reached whereby a more systematic control of congressional appropriations might be attained, so far as it is admitted by participants in the conference, an agreement is not in sight.

Confidential data along the lines of the official estimates to be submitted to congress, including the estimates bearing on national defense, will be submitted for consideration in connection with the next conference regarding a budget. Speaker Clark, Democratic Leader of the House, and Representative Hay, of Virginia, chairman of the house military committee, are expected in Washington about Friday next. The plan is to have the full committee which was authorized by the house to investigate and report on the budget plans, fire their differences probably the last of the week or the first of next.

### 22 BODIES REMAIN BURIED IN MINE

Seattle, Wash., Nov. 18.—More than 36 hours after the explosion which wrecked the Northwestern Improvement company's coal mine at Ravensdale, with the loss of 31 lives, squads of rescuers are today digging through the debris of 1,500 feet underground in search of 22 bodies still in the mine. After the recovery of three bodies yesterday, bringing the total number of identified dead to nine, the workers found their way blocked by a heavy fall of rock and coal, and progress into the depths of the level was made slowly.

## To Pry Off The Lid Tuesday Evening, Great Race Promised

George Wurster, captain of the Rexalls, and chairman of the schedule committee, has completed his work in arranging the various games of the ten teams in the Masonic Bowling League, and the schedule is printed below. The league, it will be observed, opens at the Play House on next Tuesday evening when the Cement Specials will meet the Submarines on alleys 4 and 5, while the Bald Eagles will hook up with the Ironsides on alleys 2 and 3. On Thursday evening the Ivory Knobs buckle down to work against the Clod Hoppers on alleys 4 and 5. On the following evening (Friday) the Rexalls meet the Corn Shuckers on alleys 2 and 3. Games this year will be rolled on Tuesday, Thursday and Friday nights. The first half of the race will extend until Friday evening, January 28. Then a new season will start, at the close of which the winners of the first half will play a series of games with the leaders of the second half, which will be termed the world series—the winners to be declared the champions of the league. It will be noticed that no games will be rolled during Christmas week. The schedule committee will mail to each member of the league a card containing the games in which he is to participate together with the dates. All in all the arrangements so far made have met with the hearty approval of the entire membership, and the league promises to be an unqualified success. The teams as a whole have been evenly balanced and the team that wins the flag will know it has been in a battle. The schedule follows—clip it out:

### Fulton May Meet Willard

Fred Fulton, a giant from Rochester, Minn., is likely to get first crack at Jess Willard's crown. Willard has signed for a fight in New Orleans in March, and Fulton is being groomed as his opponent. It will be Willard's first fight since he knocked out Jack Johnson.

# GAMES IN MASONIC BOWLING LEAGUE

## HARVARD EXPECTS TO BEAT YALE BUT ISN'T OVERCONFIDENT

Captain Mahan of Harvard (left), Captain Wilson of Yale, and scene in Harvard stadium. Despite Yale's victory over Princeton last Saturday, Harvard is still confident of defeating Old Eli in the great contest next Saturday at the Harvard stadium. Any overconfidence the Crimson player may have had before the Yale-Princeton game has entirely disappeared.

## Spends Fortune To Build Near-Winner

Unless Charley Comiskey's purse runs dry, the White Sox are likely to line up with this team in 1916: Arnold Grandil, now of Washington, first base; Eddie Collins, second base; Buck Weaver, shortstop; Frank Baker of the Athletics, third base; Fournier, Jackson and J. Collins, outfielders. Leibold and Murphy will be extra outfielders with Pete Johns and some of the new men from the coast acting as infield substitutes. Commy has spent a lot of money in his endeavors to build up a pennant winner. Happy Felsch, Bunny Brief and Bobby Roth cost him close to \$20,000, while Larry Chappell was no cheap man when the White Sox owner went after him in 1913.

### WHITE'S RECORD IS GOOD ONE

Backers of Charley White for a fight with Freddy Welsh cite these records of the Chicago boy as argument for a bout between the two: White, orthodox Shugrue; Shugrue deserved decision over Welsh; Welsh shaded Young Brown; White knocked out Brown in one round; Matty Baldwin and Welsh went 12 rounds; White knocked out Baldwin in one round; Welsh outpointed Yelle in 12 rounds; and White knocked out Yelle in three rounds. Welsh has had 30 battles in two years without a knockout, and in the same number of bouts White put 14 to sleep.

### MAY PLAY HUNTINGTON

The Ironton Register says: The Portsmouth Hi officials have declined to cancel their Thanksgiving Day game with a Columbus Hi school and arrange for a game between Ironton and Portsmouth Hi schools for a final game, but Manager McKee of the I. H. S. team, is keeping the wires hot to arrange for a game for that day. This morning he made an offer to the Huntington school for a game to be played at Beechwood which would mean the renewing of athletic relations between the two schools.

### BUSY SCALPERS ARE ON THE JOB

Chicago, Nov. 18.—Charges were made today that brokers have obtained large blocks of tickets for the Chicago-Illinois game at Stagg Field Saturday, and are holding them for twice and three times the face value.

### ILLINOIS TO HAVE HER FULL STRENGTH

Urbana, Ill., Nov. 18.—Illinois will go into the Chicago game Saturday with her full strength. Both Pogue and Clark, two of the best players the Middle West has produced, will be at their respective positions of half-back and quarterback.

## TAKEN TO ATHENS

John Stockham, the Madison township farmer, who suddenly lost his reason Wednesday morning, was adjudged insane in probate court Wednesday evening, and will be taken to the Athens hospital for the insane today or tomorrow. It is hoped that his condition will respond to treatment.

By Christmas

D. A. Alsop, furniture dealer, is hopeful of occupying his beautiful new home on Second street, just above Sinton, by Christmas. The whole front will be shrouded and the roof will be tiled.

## HARVARD IS FAVORITE

Cambridge, Mass., Nov. 18.—The hard campaign of preparation for the Yale game ended. The Harvard football team was prepared to receive the applause of the undergraduates in the stadium today. The students rallied to give the players an enthusiastic send-off to their retreat on Tyngs Island, in the Merrimack river, where they will seek complete relaxation until Saturday. In spite of the warning of Coach Houghton that the chances in the game should be regarded as even, many bets were placed at 10 to 5 on Harvard.

### Waiting On An Answer

P. H. S. is waiting on an answer from Ashland as to why they cancelled their game here with the second team of P. H. S. which was to have been played at Millbrook. Ashland beat P. H. S. in Ashland three weeks ago. The second team's lineup for this Saturday would have been much stronger than when the team played at Ashland. Wilson and Brandel of the first team would be seen in the second team's lineup. With Geiger, Molster, Wilson, Test and Brandel in the lineup the Ashland eleven would have a hard time repeating the score of three weeks ago.

### Peace Dove Flits Away

New York, Nov. 18.—Jim Gilmore, the fighting Federal, apparently pulled all the tail feathers out of the peace dove today with a flat-footed announcement that the Federals positively and absolutely will have a team and a park in Manhattan next summer. "In a week or so we will make a detailed announcement of our plans," said Gilmore.

### THEY DO NOW

The University of Cincinnati football team reminds us of the Reds. Sometimes they lose and sometimes they win. But most often they lose.

## Crippled Team To Face Jackson Team

With Fullock Wilson and Center Brandel out of the game on account of leg studies, the P. H. S. lineup will present a crazy-quilt appearance when it takes the field against Jackson at Jackson, Saturday. Any other two players on the team could have been left out without being so greatly missed. Wilson is to P. H. S. what Captain "Shorty" Davis is to the Ironton team. It takes Wilson to start the line plunges and to make the big gains. Brandel is one of the best all-around men on the team. Not another player can fill his place at center, while he has been proving his worth as a tackler. Grassman, the third player out, is only a substitute and has turned in his suit and will not try to make the lineup for the Thanksgiving Day game with South High of Columbus. Saturday Matting will play in Brandel's place. Matting played center in the first two games this season and made a good showing. It will be hard to fill Wilson's place. Trone, Breece and Thomas are extra backfield men. Trone will likely be put in at half-back with Wagner or Shumaker going to fullback. Wagner, half-back, played in the fullback position in the Ironton game when Wilson was out. Quinn, who has been called back from the line to do the punting and end running, will have to do his part to fill Wilson's place. Jackson will be a tough proposition for P. H. S. for the game at Millbrook was only won by P. H. S. by the small score of 10 to 0.

## When You Can't Smoke

that's the time to chew FIVE BROTHERS. When you can smoke—that's the time to choose FIVE BROTHERS.

This pure Southern Kentucky tobacco is the great favorite with men of vigor. It is full-bodied and satisfying. It gets its pleasant richness from the natural aging we give it for three to five years. And that is what keeps its quality up, always the same, no matter what the year's crop may be.

## FIVE BROTHERS Pipe Smoking Tobacco

has always given prime pleasure to many men. A FIVE BROTHERS man never switches to another brand; he knows he's losing time and pleasure on a needless experiment. Many brands come and go into the discard—while FIVE BROTHERS holds old friends and makes new ones every day.

There's a snappy taste to FIVE BROTHERS that policemen and other big fellows like. It's got that man-size quality about it; not one of those insipid, next-to-nothing tobaccos—but the big king-brand for the he-men on the force.

A week's trial will make you a permanent user of FIVE BROTHERS—go to it today.

FIVE BROTHERS is sold everywhere.

## ABIDING WITH TIME.

The Scioto bridge will be open for traffic about a week from this day.

It has been a long and aggravating wait for its completion, made more than doubly so by the extraordinary conditions that prevailed, but after all how unnecessary was the public impatience. The structure was washed away in the unprecedented flood of 1913, and many vexatious delays intervened before work was finally begun upon it, but now that its use is at hand, we may well feel that a little better than two years was not such a great while after all. For, in so far as observation, skill and experience can show we have an improvement that is not only adequate for the place and day, but one which will stand and meet all requirements both of improvement and time indefinite. In other words, it is better to have proceeded slowly and have attained something sufficient for the present and the future, rather than have hastened and made mistakes that have been altogether too common in public improvements in this county.

The same thought might well be applied to the matter of paved roads. And its correctness has likewise been demonstrated to us therewith this very year. There has been much complaint, yet very justifiable complaint of the blockade to traffic, attending road improvement but now the work is done isn't the enduring of inconvenience worth the while? Today one can travel from Sciotoville to Davis Station, a distance of more than twelve miles, any day in any sort of weather, and, outside of the unfortunate blunder of three miles of concreted, find a thoroughfare that for generations to come will be without any expense of upkeep and repairing. There will be no more concreted, it is a safe guess, but there will be many more miles of paving and the work should not stop until every main road, now under improvement is laid to the country line. It is certain anyway, that brick paving must be diligently kept up during the time road money is coming in from the special two mills levy or it will not be voted again by the people. That thought will doubtless clear the minds of the present board of commissioners, if it does not see to that effect, and it will avoid the stupendous mistake that was made by its predecessor in misusing the bulk of the fund, the first year of its levy, for other purposes.

## STILL HOLDING THE BAG.

With a sort of ghoulish glee free and untrammelled Democratic contemporaries can look upon the plight of the G. O. organs, anent the state fair.

The organs were led to play the undertaking up big, on the premise it was their patriotic duty to boost the old party, and besides there was not to be lacking a reasonable and substantial consideration for the public given. Heart and soul they threw themselves into the hoisting game, not neglecting to throw in extra and extraneous measure of scoffs and sneers at the niggardly manner in which the Cox administrations had conducted this people's show. Now comes the sequel and with it wailing and gnashing of teeth. The state fair went totally and utterly broke. The agricultural board paid the sign painters, the bill board men and issued several hundred jobs and fifty thousand free tickets to the small and large fry politicians, but there isn't one single solitary red cent left for "the most valuable means of publicity and without whose generous co-operation the fair can not be made a success"—the newspapers. The fair board has appealed to the emergency fund commissioners for an allowance to pay for advertising bills incurred, but this last body is displaying an unusually tricky twist and is wanting to know just how laudation for the able secretary can be construed as publicity for the fair, and is contumaciously holding up the allowance.

Meantime the organs are holding the bag and swearing under their breath.

Sly whispers are going about that Willis has been handed some hot stuff about who is really who here in Scioto county, but not on your life dare mention be made of the hardy one who bearded the lion in his den. Then take the whisper for home consumption strictly.

Mayor-elect Kaps is out with "a keerd" in all the force of big, black type saying he is going to enforce the law and all the laws. When we were a child there was a bright friend, who used to say to us: "Cousin Brag is a good dog, but old Hold-Fast is a better." We shall see what we will see.

E. M. Fullington has announced his candidacy for the Republican nomination for state auditor. Mr. Fullington is an exceedingly fine and clever gentleman, with a wide acquaintance over the state and chances are that he will win the nomination handsly.

The steel mills are turning out more tonnage, this year, than ever before in their existence. It does beat all how Democratic free trade continues to paralyze the industry of the country.

The taxpayer's dollar never went further than when it was spent in making a real street or road. The waste and loss is in squandering it in a way that is not lasting.

## CERTAINLY NOT IN THE GOOD ROADS CLASS

## SOMETHING ABOUT FATHER.

(Edwardsville (Ill.) Intelligencer.)

When a man succeeds in living a good or useful life that fact is usually attributed to the influence of a mother. When men talk of days past no word brings forth more treasured memories than "mother." When a lawyer wishes to arouse a jury's compassion for a client he invariably speaks of the effects of conviction on the mother. Poets, dramatists and fiction writers of all ages have united in honoring her name. Days have been set aside in her honor, pensions are given her, flowers named for her, societies founded for her.

All this is well. The world would be a sorry world, indeed, if it were not so. But is there not danger of father being overlooked in the shuffle? The average father succeeds pretty well in discharging his duty to society. He labors along persistently and quietly for six days a week that his family may be provided for; he stands between his family and the world shouldering the responsibility of the rent, the taxes, the grocery and coal bills; he admonishes the boy and advises the mother, seeking always to make their burden lighter; he works unceasingly, without complaint, fighting, scheming, suffering, to the one end that his family may be assured comfort and independence. In this he sometimes fails, but he keeps on trying, cheerfully, solidly, stubbornly, lugging along to the end.

The sacrifice that must be made he makes willingly. The boy must go to college and the girl must have music lessons; something must be cut, and usually it is some luxury of father's that falls by the wayside. He is not so poetical a figure as mother, not so demonstrative in his affections, so elated in pleasure, so depressed in grief. And yet many will remember a kind word here or a thoughtful act there, that stands out clear and distinct as one of youth's happiest impressions.

Not often is he appreciated by the growing boy. Often he stands in the family as the official admonisher to whom the boy's faults are related for punishment. On him falls the unpleasant task of applying the rod; his is the arm that must enforce respect for mother and regard for the rights of others. In this light the growing boy is likely to view him with a mixture of fear, awe, and respect. (Not until years bring a proper perspective is he rightfully understood and appreciated—and perhaps not even then.)

A Missouri attorney, wishing to know what others thought of him, disguised his voice and told an acquaintance over the phone that he (the attorney) had just dropped dead in the street. "Is that so?" was the response. "The old fool ought to have been dead ten years ago."—Columbus Dispatch.

## MAKE THE ROADS BETTER

BY JESSE TAYLOR

Editor of Better Roads and Streets

Maintenance, maintenance, maintenance. Your roads will go to pieces without it.

The improvement of a road enlarges the opportunity of all who have anything to do with it.

Those who oppose the early improvement of our public roads are stumbling blocks in the way of progress. Let the Devil take them.

Bad roads impose a greater tax than the tariff, yet politicians have been burning the air for years about the tariff and dodging the road question. The people intend to make them state their position.

The surface of every road should be made water-proof, and ditches kept open to prevent water standing on it, along it, in it or under it.

The road question has passed the stage of merely local interest and must be recognized as the nation's greatest problem. You will hear about it in the next campaign.

Ninety per cent of all the travel goes over twenty per cent of the mileage of roads, and the first to improve are the main market roads connecting all important commercial centers.

The question of state aid has been settled by the legislature of almost every state, and the question of national highways is now before Congress. At the coming session what will your Congressmen or Senators do—vote yes? Vote no? Or duck?

The custom of many township officials of placing large crushed stone, boulders, or gravel on the hard surface of a road should be a crime punishable by a heavy fine.

Under the provisions of the Cass Road Law license fees paid to the state by owners of automobiles are credited to the state road maintenance fund and spent by the State Highway Department in repair and maintenance of inter-county and main market roads.

Paul Trenchinsky, a Russian Prince, has had a disillusioning experience with American police methods. With a friend and two beautiful ladies he started out slumming the other night from the Plaza. He expected the portals of the underworld to open at his knock.

But alas for rude reality! The Prince knucks at the door of an abandoned gambling resort and a disrespectful policeman drags him to the station house to spend the night in a cell. His finger prints were also taken.

The only way for a Prince to feel at home in New York when he goes slumming is to get the proper credentials from the ward leader. In that way he can go the limit without fear of being disturbed but just being a Prince means nothing in the lives of our policeman.

# USE OF CLARIFIED WATER FOR FLUSHING IS WASTE

SAYS MAYOR FRICK

## Attention Of Council Called To This Matter; No Action Taken Last Night On Street Fairs

It's a shameful waste of the city's money to buy chemicals with which to clarify water and then use this clarified water for back flushing leaves off the strainer," thus Mayor Frick expressed himself on a situation at the new water works reported at Wednesday night's meeting of city council.

It's only another defect of the system. The very idea of back flushing through the intake tunnel with your clarified water. It is one of the defects council will have to remedy before accepting the plant," the mayor asserted.

The subject had been broached by Councilman Wilson. He said George Shute, the city's sanitary hydraulic engineer, had called his attention to the situation caused at the pumping station due to the hose method available for back flushing. During the process of back flushing water was drawn from out of the city mains. Naturally this materially reduced the pressure and the higher buildings and the hill top residents were the chief sufferers. He spoke of the danger of such a situation in the event of a fire. Mr. Shute had said, had suggested that a connection be made with the settling basins and that the raw water there be used for back flushing. He thought the cost of the connection would not exceed several hundred dollars. He therefore moved that the service department investigate and bring in a recommendation.

### Condition Worse When River Is Up

President Cook called upon Mr. Shute for an expression and he corroborated Mr. Wilson's remarks, adding that the condition was particularly bad when river rises occurred. The recent drought had caused leaves in abundance to be washed against the strainer until it was necessary to back flush almost every hour and this has the effect of drawing all the water off the hill. He recommended that the connection referred to be made, saying it would be a good thing anyway if the present conditions did not prevail and said there was some pipe on hands that could be utilized for the purpose.

Chairman Moeller, of the water and light committee, recommended the extension of water mains out Scioto Trail and up Mabert Road and upon his motion the matter of issuing bonds for that purpose was referred to the engineer for an estimate and solicitor for legislation.

Following a whispered conference with his fellow members of the finance committee Mr. Osborn announced that it was the wish and sense of the committee that the solicitor prepare the legislation as soon as he receives the engineer's estimate for the water extensions and bring both in at the same time.

### Just Handed To Wilson, That's All

Chairman Wilson, of the police and fire committee, enacted a dodging stunt in presenting the proposed ordinance of the Business Men's Association, regarding street fairs. Mr. Wilson explained that it had simply been handed to him and that he did not know if it was intended for him alone or someone else, at any rate he was not familiar with it and therefore moved to refer it to the committee on ordinance. This provoked a laugh at the expense of Mr. Westphal, chairman of the ordinance committee who for the past two years has had the "distinct pleasure" of quietly sitting back in his chair and seeing ordinance after ordinance introduced over his head or without having first been presented to him.

"I have been ignored in the past, but if I get the pleasure of handling that I'll accept it," smilingly exclaimed Mr. Westphal as he alone voting against referring the ordinance to his committee.

### More Money Needed For Street Cleaning

Director Gergens, of the public service department, called attention to the need of more money for street cleaning purposes. He said the newly paved streets added greatly to the department's work and Gallia pike particularly had become quite a drain on the funds available. He said that there had been so much dust and dirt on the street due to overloading wagons hauling dirt from the hill top additions that it became necessary to sweep and clean the street twice weekly in order to keep down complaints. He said that with the money left it would be possible to keep up the street sweeping only for the balance of the present month and if the work was to be kept up during December there would have to be a special appropriation made. He thought \$500 would be a sufficient sum. Upon motion Mr. Osborn the solicitor was directed to bring in a special appropriation for that amount.

from Division Engineer Loeh. Engineer Wilhelm had sought to take up the matter with Mr. Loeh Wednesday but found him absent and felt he made the mistake of "mussing it up with a subordinate" for he was all but thrown out of an eighth story window of the skyscraper. He asked under what franchise the N. & W. was operating that it could do as it pleased and show no consideration to vehicular traffic. He said the railway had taken the very heart out of the street, particularly between Twelfth and Thirtieth streets.

Solicitor McCall said the N. & W. had no franchise, but was "simply there because they are there," but believed that if the matter be taken up with them they would plunk between the tracks rather than take chances in testing out their rights in a street. Mr. Cook suggested that the service director had the authority to bring the company to time. Mr. Gergens thereupon declared his intention of notifying the company it would have to plunk between the rails.

### Still Rents With County Commissioners

Mr. Cook asked Mr. Gulkar if his committee had any report to make on the matter of the new county bridge approach. Mr. Gulkar replied that it still rested with the county commissioners who he understood were now likely to purchase the three or four houses at the approach if Engineer Sommerville recommended it. The prosecuting attorney, too, had held it was legal and he believed the proposition would go through. Mr. Gulkar felt that early action ought be taken for the houses clearly stood in the way of the new bridge.

The \$500 bond submitted by Constable-elect John Neu was unanimously approved.

A number of newly elected officials, among them Solicitor-elect Anselm Skelton, attended the meeting to get a line on how city dads perform. Mayor Adam Frick extended a glad hand to one and all who came to receive "first degree" and graciously passed around cigars.

At a meeting held Wednesday afternoon by members of the Junior and Senior classes of the high school it was decided to change the date of the Junior-Senior inter-class debate to Monday Nov. 29. The former date was Friday Nov. 26. The debate will be held in the high school auditorium in the evening. Tickets will be on sale Friday. The proceeds will go towards financing the High School News for the rest of the school term. The debate is on the question, "Resolved, That Suffrage Should Be Restricted by Educational Qualifications."

## Band Will Give Concert

The Lewis Brass Band will give a concert at the Allen M. E. church this evening at 7:30 o'clock. The program will also include several instrumental and vocal numbers.

### Will Nominate

Nomination of officers for the coming year will be held at the weekly meeting of Portsmouth Council, Jr. O. U. A. M., this evening. A friendly, but spirited, contest is anticipated for some of the offices.

## RIVER MEETING IN CINCINNATI

Portsmouth has four delegates at the annual meeting of the Ohio Valley Improvement Association, which opened this morning at the Hotel Gibson in Cincinnati. The local delegates are W. B. Anderson, Charles Daehler, Alan N. Jordan, and Frank M. Bagge. Huntington sent a delegation of thirty representative men, the largest delegation ever sent to a meeting of the association from that city.

## Husband Is Missing, Breaks Up Her Home

Thoroughly convinced that her husband has deserted her and gone away for good, Mrs. George Turner has broken up housekeeping, vacated the property at 609 Eighth street (rear) and taken up her abode with Turner's mother. Mrs. Turner had gone away from home on a short errand Saturday evening and when she returned found a note on the kitchen table. It was from Turner, he writing that he was going to Sunny-Tennessee and would remain there until the blue birds warbled again. Turner was employed by a Gallia street firm.

## STEPS ON NAIL, BLOOD POISON

Ben Osborn, street car motor man, is off duty on account of blood poison. Osborn stepped on a nail over a week ago. Perry Helterbridge is working in Osborn's place.

## Will Testify In The "White Slave" Case

United States Deputy Marshal Falk, of Cincinnati, who came to the city Tuesday, left Wednesday with Jesse Niece and wife, Belle Niece, of New Boston, for Whitesburg, Letcher county, Ky., he having a subpoena for the couple, who are to be witnesses in a "White Slave" case being heard in Whitesburg. John Magard, who is on trial, is charged with running away from New Boston, with another man's wife. Magard formerly resided in New Boston.

## One Square Paved

Contractors S. Monroe and Sons will complete the laying of brick on Mabert Road today. The street will have a cement filler. A little over one square was paved this fall.

## PIERS COMPLETED

The Dravo Constructing Company of Pittsburgh has completed work to hold the structural iron work of building C. & O. North-cen bridge piers at Sciotoville and on the Kentucky side of the river. The contracting company's steamer Lyda arrived at Sciotoville, a number of small concrete piers Wednesday, and is moving all equipment a distance under the waterment of the company to Parkers-will be used for supports for false burg.

## ORDINANCE VIOLATED, POSTERS TO COME DOWN

Mayor Frick has given the Sun-theater management just twenty-four hours in which to remove advertising matter just posted on the retaining wall on the north side of Gallia street at East Portsmouth, and on garbage receptacles and vacant building about town. The mayor advises that this is not only annoying to the public and unsightly to the community, but strictly in violation of the city ordinances.

## Better Hurry Buy That Season Ticket

Although the public is responding to the appeal to buy more high school lecture course tickets, there are still about 300 tickets to be sold to insure the financial success of the course. The fact that people are buying tickets right along, even though two numbers have passed, shows that many have hitherto given the matter little or no attention.

Every patron of the schools should at least consider the idea of getting a ticket. He should look carefully over the list of entertainments and pick out the numbers which he would like to hear. Many persons will neglect to buy a season ticket but will attend four or five entertainments, paying fifty cents at the door each time. These sums soon amount to more than the price of a season ticket.

If you are thinking of attending just a few of the entertainments, consult a friend and arrange to buy a season ticket between you. Many find this method satisfactory, as well as cheap. If you haven't a ticket you will probably be approached by several high school students, as the sale of tickets is being pushed as it never was before.

## TO DISMANTLE FURNACE

Iron-ton, Nov. 18—Salle Bros. have bought of M. E. Bomen, receiver for the Olive Furnace, the old furnace and will begin in a few days to dismantle it for scrap iron.

N. & W. Wreckmaster A. J. Weber has moved from 1732 Twelfth street to 1614 Vinton avenue.

## FALLS THROUGH BRIDGE; SUFFERS A BROKEN HIP

William Mills, 25, colored, of Cincinnati, an employee of the Ohio Valley Traction Company, had his left hip fractured about three o'clock Wednesday afternoon, when he fell from the traction line bridge over Wizard Oil Creek bridge, about four miles above Wheelersburg.

Mills was driving bolts and a piece of rail flew up, hitting him in the side and knocking him from the bridge. He landed in a heap a short distance below. Fellow laborers rushed to his side and thought he was suffering with a broken back. The company physician, Dr. J. F. York, from Sciotoville, was summoned and he moved the man to the hospital, where an examination showed a fractured hip and badly wrenched back. Thursday he was resting easy.

## COUNTS MONEY IN PUBLIC; NOW LOOKING FOR HIS ROLL

Unaccustomed to the ways of a real life city, a Jackson countain, who gave his name later as C. J. Smith, landed here on a B. & O. S.-W. train after dark Wednesday evening and made the fatal mistake of counting his roll in public. Smith was standing on Waller street between Fourteenth and Fifteenth streets and had just counted his thirty-third dollar when a colored boy rushed up from behind and grabbed part of the roll and disappeared down an alley in the direction of the N. & W. railway cut. A son of a Grocer Judge Bellamy saw the boy grab the money and reported it to the police.

Captain Cooper and Officers Goings and Albrecht at once investigated and sometime later arrested a boy said to be Jimmy Roberts, aged 12 years.

The boy promptly admitted the theft but claimed he did not remember where he had concealed the money, of which he had but one dollar in his pockets. His victim was too drunk to tell his own name, but had sobered up in time to appear in police court Thursday morning when he revealed his identity. He claimed to come to Portsmouth to visit a sister. The amount taken from his role was \$11.

Chief B. E. Allen and Officer William Osborn started out Thursday morning to renew the search for the money, taking young Roberts with them and unless it is found he will be turned over to Judge T. C. Beatty, of the juvenile court. Smith was fined \$5 on a charge of drunkenness.

## Dr. Dan Gray Buys Flats

The Iron-ton Iron-tonian says: "The deal for the Roosevelt Flats, whereby they became the property of Dr. Dan Gray, was completed yesterday."

## ALLEGED NEUTRALITY VIOLATION

New York, Nov. 18—An allegation that the German government appropriated \$750,000 to charter and load a fleet of steamships which cleared from New York early in the war to supply German cruisers operating in South American waters will be made by the government at the trial of Karl Buer next week, according to United States District Attorney Snowden H. Marshall.

It is stated that the government will try to show that the operation of the supply ships was directed to a great extent by an official of the German government who still is in the United States.

Buen, who formerly was German consul general here, and now is managing director of the Hamburg-American line, is accused of violating the customs laws and neutrality of the United States by sending out the supply ships.

Mr. Marshall says he does not intend to take up the charges of Dr. Joseph Gorier, that diplomatic and consular representatives of the Teutonic allies are directing the work of a large number of spies in this country; until A. Bruce Bielaski, chief of the bureau of investigation of the department of justice, has made a report thereon to Secretary of State Lansing.

## CROSSING IS IN BAD SHAPE, SAYS MAYOR

The mayor has called the attention of N. & W. officials to the fact that the surface crossing at Broadway is getting into such shape as to endanger traffic. He also reminds the company of its promise made last May to place the crossing in bad shape.

## 31 PRAYERS OFFERED

"Go to Prayer Meeting Night" was observed Wednesday night at the Fourth Street M. E. church. Twenty-five percent of the membership of the church was represented and 31 prayers were offered. On last Sunday the church officials visited 100 homes and last night's enthusiasm and attendance are attributed to these visits.

## HERE IS THE INFALLIBLE SIGN

Ben Neighbors rounded in at the city prison Wednesday evening for lodging, which fact is regarded as a sure sign that winter has "come." Ben for years past would spend his springs and summers in the city working at his occupation as a teamster, but just the moment winter arrived he would bid himself to the county infirmary. He is now on his way to the "pogey."

## SURE, TIMES AD DID IT

Monday evening Mrs. Ella Gable, school teacher, of 1517 Eleventh street, lost her pocketbook containing a neat sum. Tuesday she inserted a lost ad in The Times and a few hours after the paper was off the press a gentleman called with her pocketbook. W. H. Welch, representative of the Van Horn and Sawhill Surgeon Supply Company of New York, found the pocketbook on a street car, Mrs. Gable dropping it when she left the car.

## FEUD EXPECTED AS RESULT OF KIDNAPING

Welch, W. Va., Nov. 18—The breaking out anew of a West Virginia-Kentucky feud is feared following the kidnaping of Clarence Pendleton, a telegrapher at the Lager tower of the Norfolk & Western railroad, by two men, said to be John and Jacob Daniels, brothers.

Pendleton was taken as he was leaving the tower, beaten into unconsciousness, placed aboard a freight train and taken to Devon, 20 miles west, where his wounds were bandaged. Later he was taken to Pikeville, Ky., and lodged in jail. Friends of Pendleton have started across the border and a bloody battle is thought to be imminent.

St. George and St. Peter. Besides the patron saint of England St. George is also patron of Moscow, on whose arms there figures the picture of the saint slaying the dragon. A famous Russian military decoration—the Order of St. George—which was founded by Catherine the second—also commemorates the saint in Russia. It may incidentally be pointed out that while St. George was noted as the "military protector" of England early in the thirteenth century the patron of England had for two centuries previously been St. Peter, which helps to explain why more churches here in England bear dedicated to that saint than to any other.

## Are Building New Culvert

Iron-ton, Nov. 18—The Ohio Valley Traction Co. has commenced the construction of a concrete culvert on its right of way near the Monahan place, below Seidgwick.

Editors and Writers. Nowadays in editorial offices it is not in the wise old way. "Let us get a good story as possible from Kipling's story," but "Let us buy a Kipling story"—as one would say "Let us buy a yard of ribbon." We do not desire so much the heart of a writer as his outward seeming. We want unces, not stories.—Bookman.
